Hawaii Army National Guard Environmental Policy Statement

The Hawaii Army National Guard (HIARNG) is a trained, professional force ready to accomplish its missions with citizen-soldiers committed to preserving service to our nation and communities. While demonstrating sound environmental stewardship, our mission is to maintain properly trained, equipped, and disciplined forces for domestic emergencies, or for prompt mobilization for war.

This organization commits to continual improvement and prevention of pollution. Soldiers and civilian personnel shall comply with all relevant environmental laws, regulations, and other requirements to which our organization subscribes. Personnel shall accomplish this by using management procedures to improve and measure environmental performance.

Personnel shall become stewards of environmental protection by being responsible for understanding and implementing current procedures, practices and policies and by bringing deficiencies of operations to the attention of top management.

We pledge to monitor our performance as an ongoing activity and provide a framework for establishing and reviewing quality and environmental objectives and targets.

ARTHUR J. LOGAN
Brigadier General
Hawaii National Guard
Adjutant General
