(E-8) of the Hawaii Air National Guard.  
**(See NOTES TO APPLICANTS)**

SUMMARY OF DUTIES: Operates C2 Battle Management Systems, Air Defense, and Air and Space Operations Center (AOC) equipment. As a participating crewmember of an operational unit, interprets and reacts to radar data presentations and to generated console displays. Compares and reports track positions based on flight data or database files. Performs surveillance, combat identification, weapons control, tactical data link, and data management functions. Conducts mission planning. Builds and executes air tasking orders and airspace control orders. Responsible for Battle Management and safety of flight for air operations being controlled. Tears down, loads, transports, unloads, and erects equipment and components. Gathers, displays, records, and distributes operational information. Coordinates with and exchanges air movement and identification information among air defense, air control, range control, and air traffic control agencies on matters pertaining to aircraft operations. Plans data link operations. Operates data link equipment and other automated data exchange devices to gather and relay command and control situational display information to create a single integrated air picture. Reports emergency signals and EA observations. Maintains logs, forms, and database files. Evaluates radar detection and performance. Maintains liaison with air defense artillery, and surface naval fire units to ensure safe passage of friendly air traffic. Performs EP functions. Maintains maximum radar sensitivity using EP techniques to eliminate degradation caused by electronic warfare (EW) activities or other influences. Monitors operation of radar inputs and countermeasure consoles, anti-jamming displays, and radar sensors to enhance radar presentations. Performs training, planning, standardization and evaluation, and other staff duty functions. Performs staff assistance visits to subordinate units. Tests and evaluates capabilities of new equipment and propriety of new procedures.
