
CYBER START

Recognition Ceremony

**State Capitol Ceremonial Room
November 17, 2017**

CYBERSTART

Earlier this summer, the State of Hawaii, along with six other states, was selected to pilot a program developed by SANS Institute called CyberStart for high school and college students to assess their cybersecurity abilities. Almost 3,300 students participated with over 300 from Hawaii. Of those, 22 students received \$1,500 scholarships to cover the full cost of the SANS Institute 2018 CyberStart Essentials cyber skills development program. Today's ceremony recognizes these outstanding high school and college students that have excelled in this program. Congratulations to Hawaii's future cybersecurity professionals!

SCHEDULE OF EVENTS

- | | |
|---------|---|
| 9:45am | Welcome and Opening Remarks
- Governor David Ige
- Ms Tracy Fu (SANS Institute) |
| 9:50am | Scholarship presentations |
