## War God Of King Kamehameha I • 154 COMPG

Vol 33, No. 1

Hickam Air Force Base  
Hawaii

January 11, 1987

### SENTRY TIGRE '87

### BUSY BEGINNING

The new year starts off as a busy beginning with several exercises scheduled. In addition to Sentry Tigre '87, Patriot Palm will see twelve F-16 A's from the 419th Tactical Fighter Wing (Air Force Reserve), Hill AFB, Utah, here from January 24 to February 21. The 154th Composite Group will have the opportunity to conduct dissimilar air combat tactics training against the F-16's. Ten F-4D's of the 507th Tactical Fighter Group (Air Force Reserve) from Tinker AFB, Florida, will be at Barbers Point January 10-24. The Group anticipates conducting force protection, escort and air combat training with them. Finally, Varsity Scrimmage, a U.S. Navy task force exercise, will take place January 11-14. The Group will conduct air combat training and defensive/offensive counter air operations against task force carrier aircraft.

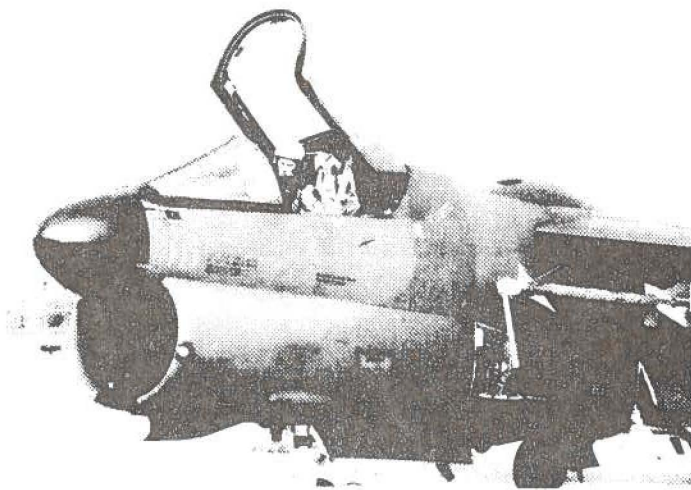

### GOVERNORS' RIGHTS AND THE NATIONAL GUARD

In an unprecedented move, Congress has voted to limit the authority of state governors to block overseas training for National Guard units.

Congress supported an amendment to the 1987 Defense Authorization Act that permits governors to keep their Guard units at home only if there is a legitimate state emergency.

The legislation centers around the actions of more than 20 state governments to keep their National Guard troops from training in Central America.

James H. Webb Jr., Assistant Secretary of Defense for Reserve Affairs,

Six A-7's from the 162nd Tactical Fighter Group, Tucson International Airport, Arizona, arrived yesterday afternoon. The Arizona aircraft, aircrews, and support personnel are here once again to participate in Sentry Tigre '87. The DACT (Dissimilar Air Combat Tactics) exercise will run through January 18. The A-7's will simulate adversaries in wartime scenarios and engage our F-4C's in "dog fights" and aerial maneuvers. The 154th Composite Group has scheduled 54 training sorties.

Sentry Tigre exercises first started in 1980 and has provided excellent training for our aircrews. This year will be the last time that the 154th Composite Group and the 199th Tactical Fighter Squadron will employ the Phantom jets as the ongoing conversion will bring the F-15 Eagles later this year.

Continued on page 8

## Commanders Corner

by  
Col. John S.W. Lee

It is a New Year and we expect more exciting challenges for 87 such as the F-15 on our ramp in March. We have started our conversion as visibly seen with added warehouse material in our areas, people going to schools, and numerous planning meetings to anticipate this major event. Our first four aircrews will go to Tyndall, Florida for an 11 week conversion training beginning in February. Maintenance has already started their enormous conversion training here at home and on the mainland.

But "dogfighting" training requires continuous honing of skills, both personal and from a team standpoint. And that is why the Tucson A-7 El Tigres are here. Although only for a week's stay, the El Tigres offer us some of the best team training opportunities we need to maintain that fighting edge.

We accomplished a milestone closing out 1986 when we finally achieved 85% in overall skill level for the Composite Group units which means that we are training with vigor and upgrading our personnel. With the advent of computers, more training will be required just to stand still.

Finally, if you haven't as yet made your New Year's Resolution, consider this: We seem to exist by routines...start looking at how you do things from a different perspective (usually gained by listening to others). There is something unusually satisfying when you discover a new perspective.

## Next UTA

### FEB 7 & 8 1987

## NEW CINCPACAF

General Jack I. Gregory is the new Commander in Chief, Pacific Air Forces, replacing General Robert W. Bazley, as change of command ceremonies were held on December 16, 1986 at Hickam AFB.

His early career saw assignments to Korea, Japan, Oregon, Arizona, Germany, Thailand, Washington D.C., and Florida.

In July 1975 he became vice commander of the 347th Tactical Fighter Wing at Moody Air Force Base, Ga., and was named wing commander in August 1976. During this period, General Gregory led the conversion of that Air Training Command base to a Tactical Air Command asset. Three new F-4E tactical fighter squadrons were activated and brought to combat-ready status.

In October 1978 he was selected to command what is now the 831st Air Division at George Air Force Base, CA, where he was responsible for the Wild Weasel Defense Suppression Forces flying F-4C's, F-4E's, F-105G's and F-4G's. He became assistant deputy chief of staff for operations at Tactical Air Command Headquarters, Langley Air Force Base, Va., in March 1980 and also served as director of operations for the Air Force of the Rapid Deployment Force.

In June 1981 General Gregory moved to Nellis Air Force Base, Nev., as Commander of the U.S. Air Force Air Demonstration Team, the Thunderbirds, to F-16s. He was also responsible for the USAF Fighter Weapons School, the Aggressors, Red Flag exercises, fighter testing and tactics development programs and the operations of A-10s, F-15s, F-16s, F-4s, F-111s, F-5s, A-7s and T-38s.

General Gregory was named commander of the 12th Air Force located at Bergstrom Air Force Base, Texas, in June 1983. In that position he was responsible for 13 tactical wings made up of 50,000 personnel and 1,100 aircraft including F-4E/G's, F-15A/B's, F-16A/B/C/D's, F-5B/D/E's, RF-4C's, A-10's, F-111A/D's, EF-111s, T-38s, OA-37s and OV-10s. He also held advisory, evaluation and inspection responsibilities for Air National Guard and Air Force Reserve TAC-gained units, which included an additional 25,000 personnel and 550 aircraft.

In June 1985, General Gregory transferred to Yongsan Army Installation, Seoul Republic of Korea, as deputy commander in chief, United Nations Command; chief of staff, Republic of Korea and United States

# Pastor's Perspective

by Chaplain  
(1Lt) Robert Nagamine

I am glad that 1987 has finally arrived. 1986 was a good but long year for many of us. At the close of the 1986, it was a good feeling to wrap up another year's work of undertakings. It was rewarding to reflect back on the many accomplished victories. Some victories came easy, while others came by the way of much adversity and overcoming many hurdles. But through it all, God was there with us and we are thankful. He helped us to weather the storms of life, and when we needed encouragement He opened the windows of heaven and showered upon us His blessings.

Some highlights of 1986 come to mind. The space shuttle Challenger incident was tragic, but through it came the birth of a dream in the hearts of many young people to want to become astronauts. We survived a crucial election year that was filled with a hard fought governor's race, but out of it marks a new beginning. With our new governor, John Waihee, it marks yet another opportunity for great events to be recorded in the pages of Hawaii's history. The University of Hawaii football team came away with a winning season and played very well against two Big Ten teams, winning Wisconsin and playing Michigan tough. The F-15 conversion process was challenging and continues to challenge us, but with change there will be growth and progress. And so, we march forward into the new year.

I have a feeling that 1987 may turn out to be a good year. The potential is there. May we see the potential in each new day of the new year. Recently I read an account of a man who developed what he called a "Happiness Calendar". This calendar listed the best memories to date on each of the 365 calendar days. The events that made him the happiest were recorded from the calendars that he had kept of

past years. Whenever he would get sad or discouraged, he would open up this special calendar and see that on the same day of a previous year it was a happy day for him. This would encourage him and make him see the potential for that day. Starting with this year, may we begin developing our own "Happiness Calendars".

May God continue to bless and strengthen us through this new year. May He provide us with many of the happiest days of our lives in 1987.

## CONGRATULATIONS

The following is a reprint of a message received from the Chief of the National Guard Bureau, Lt Gen Herbert R. Temple, Jr.:

Congratulations to the men and women of the 154th Composite Group, 169th Aircraft Control and Warning Squadron, and the 150th Aircraft Control and Warning Squadron for the excellent rating earned during their recent limited unit effectiveness inspection. I commend the leadership and personnel for their positive and professional attitude, outstanding efforts, and dedication. This rating demonstrates the professional qualification and exceptional accomplishments of your people. Please extend my congratulations to your personnel for their noteworthy achievements.

### Here's a tip . . . a tax tip.

Be careful when selecting a tax preparer.

- stay away from someone who claims to have an "in" with the IRS,
- don't accept promises of a refund

- Get the preparer to sign the return,
- NEVER agree to sign a blank return.

# CAM SQ.

## News & Views

by MSgt Fred M. Higa, Jr.

HAPPY NEW YEAR, GANG!!!!!! Hope all of you had a great holiday season. This new year should be a very busy one, a year for all of us to prove that this Squadron's motto, "NO KA OI", really is justified. We already have CAM Sq people away in school or acceptance training, and we will be seeing some FTT instructors in our area to train us here on base. All of this activity as you know by now, is in preparation for the arrival of the F-15 Eagle. In March, we will mark the beginning of another era for the HANG with the new aircraft, and I'm sure we'll be able to come through with flying colors as has been the trademark of CAM SQ..... Would like to welcome back from Tech school Sgts Faye-Starr Melemai & Marv Ohashi as they join their comrades in the Munitions Branch; MSgts Ray Choy and Richard Kudo are also back from tech school after attending the F-15 Precision Equipment Maintenance class at Lowrey AFB. TSgt Gary Mau hasn't returned from that school yet as he's taking a couple weeks leave before he comes back to work; MSgt Gary Cera is back from the Advance Composite Repair school at Chanute and "HOTS" training at Tyndall AFB....The welcome mat is out for SSgt Deborahline Whitford who joins the Admin office this drill and to Sgt Ernest Terukina who will be in the Sheetmetal shop. Debbie comes to us from the 48 Aeroport Sq, Air Force Reserve, in Area 61, and is already a dancer with our HANG Ohana hula dance troupe. Going off to tech school are TSgts Clifford Ono & Gareth Ishida & SSgt Lester Leung to attend the F-15 Manual Test Station class at Lowrey AFB. SSgt Yvette Escuadro is leaving the Fabrication Shop to work for the Maintenance Controllers of MSgt Rudy Luat. Good luck to you.....SSgt Gay Ross and Sgt Mark Coulbourne are back to work in Engine shop after returning

from Creek Klaxon in Germany. Mark is back with much kudos as he was tasked to overhaul an afterburner and he did the job in three days, which happens to be in record time. This included a removal, overhaul and replacement of the afterburner assembly. Really good to show what our CAM people are made of. Right On, Mark!!! Also back from Creek Klaxon is TSgt Gaylen Redoble of Weapons shop. Only advice to those leaving soon for Germany, "make sure, real sure, you have warm clothing, it gets colder than you think." So, 1Lt Dave Snakenberg, TSgt James Akau, SrA Lester Kanno, Sgts Kent Thompson and Gary Doane, and SSgts Robert Yokono, Craig Makiya, Miles Moriyama, Douglas Pilares, see Gaylen for all the info. Off to Tyndall AFB, Florida, for the F-15 acceptance training are SMS Ken Morimoto, MSgts Sam Saffery, Mel Ige, TSgts John Chun, Roy Kuwana & George Ganeko, SSgts William Beck, Art Kaai, Owen Uehara & Tracey Alvey. In FTD at Tyndall AFB is MSgts Tommy Hirao, Mel Chang, George Padilla and Gerald Chun for Weapons training. They'll also go to Holloman AFB, New Mexico for hands on training. Capt Keith Kunichika is on a visitation to Eglin AFB, Florida and Holloman AFB for F-15 conversion coordination and will join CMS David Pontes in Dobbins AFB, Georgia for a SEAG conference....To TSgt John Cabacungun of Maintenance Control, your USAF Achievement is well deserved.... The CAM Sq Huli-Huli chicken sale is now on through February. Your tickets are available through your supervisor so get yours early. Your support is needed as this will be the one & only fundraiser for CAM Sq's MWR fund. It is for a good cause so please kokua.. Our 5th Annual Recognition Banquet is set for Sep 4 (Friday) at the HaleKoa Hotel's DeRussey Room. Make plans now to attend, flyers will be posted for more information...My apologies go to retiree MSgt David DeMattos last iss. I inadvertently used Harold DeMello's name instead of Dave's concerning dau Joyce Hollinger's need for 52 pints of blood....Dave says his daughter is a lot better now and wants to thank all those who have donated so far..... And finally, "Reputation is a bubble which a man bursts when he tries to blow it for himself." (Emma Carlton). Til next month and issue.....fhiga

### More on Sexual Harrassment

All things change except change. As an issue, sexual harrassment, is new. Many of the ways men and women interact developed over years of tradition and history. Roles, views of the opposite sex and ways of dealing with each other have changed little for centuries. The customs, attitudes, and perceptions have not kept up with the changes in our world. The result is that now, some of our male/female interactions have become harrassment.

Our programming, learning, of sexual roles is done so well that we participate as males and females, in attitude and actions, before we participate according to our individual personalities. It's only within the past 20-30 years that we've become aware of the inequity, destruction, and limits of the programming. If we still lived as people lived before industrialization, our programming would fit. As our world is now, the programming does not fit. Customs, which worked before industrialization, don't work anymore. Attitudes, which were acceptable to our parents and grandparents, aren't acceptable anymore. Views of male/female roles do not match reality. We are a generation of rapid change and we need to develop new attitudes, customs, perceptions, and actions that will work within the changes.

In future articles, I will explore the issue of sexual harrassment, the history and the current situation. Before each of us can make informed choices in our interaction, we need to have the background.

## **KUDO**

A1C Byron A. Lau, 154 Combat Support Squadron, was recently recognized for his superior academic achievement while attending the Food Service Specialist Course. Congratulations!

**HAWAII NATIONAL GUARD  
ENLISTED ASSOCIATION**

Message from the HNGEA President,  
SSgt Jan K.N. DeRego

Nearly five years ago, I joined HNGEA because I was convinced National Guard men and women needed an added voice to speak out views and concerns of the National Guard to our elected leaders. My conviction is even greater as I realize the days ahead are not going to be easy for any of us. And that's precisely why I'm asking you to add your strength to the "Voice of the Enlisted" by continuing to support HNGEA.

January 1987 begins a new year for membership. So far we start with 106 members from HANG and 200 members from HARNG. August 31 '87 is the cut off date for membership. I encourage you to continue to support HNGEA and together, you and I can resolve legislative issues and concerns regarding the National Guard. By getting involved you're really helping yourself.

We held our first Organizational Executive Council Meeting this past weekend. We had a special guest that attended our meeting CMSgt Arthur Lee, HANG Senior Enlisted Advisor. Highlighted topics were: recognizing our retirees, membership and commissary entitlement.

Speaking of the commissary entitlement, because the commissary entitlement was enacted by the 99th Congress after the survey came out, there were a few remarks that indicated the confusion on this issue. Yes, the commissary entitlement was enacted into law, signed by the President on November 14, 1986 and contained in Public Law 99-661. The law has not been published to date.

The 1987 EANGUS Conference will be held in Louisville Kentucky. More details later.

I will be entering our newsletter "Puali Koa" into the national organization's (EANGUS) Seventh Annual Publication Contest. Hope we get first place?

The HNGEA's doors are always open for you to feel free to voice your opinions. I would like to hear from you....

I am delighted to serve you again as HNGEA President for CY 1987. I'm confident that the Executive Council and myself will prosper in 1987.

Happy New Year to you all.

**HNGEA NEEDS YOU**

The HNGEA Executive Council recently met and MSgt Wayne Soma was selected to head the Scholarship Committee, Nominations Committee, and the Fund Raiser and Special Projects Committee. MSgt Soma is looking for volunteers who are willing to serve on any one of these committees for a year starting in January and ending in December 1987. The experience will be rewarding and members can see first-hand on what the Association is doing locally for everyone. The time involved is minimal, about three total hours throughout the year. If interested, please contact MSgt Soma at the following numbers: 449-6986-Hickam, 422-1418-Hon, and/or 422-6773-Home. This plea is open to any members of the HNGEA-Technician or Drill status.

Note: The Scholarship deadline for our local program has been changed from June 30 to May 31. Those who want to apply should contact MSgt Wayne Soma.

**UNIFORM TIP : AFR 35-10**

The lightweight blue jacket is an outer garment just like the raincoat, overcoat and all-weather coat and is for wear outdoors. In contrast, the pullover sweater and service coat are considered indoor/outdoor garments and may be worn indoors as well as outdoors with a suitable outer garment outdoors. (CBPO, Personal Affairs Section, 449-5669)

**PILOT TRAINING SLOT AVAILABLE**

The 199th Tactical Fighter Squadron is seeking a highly motivated individual to send to undergraduate pilot training. The individual selected will attend UPT class 88-07A, August 5, 1987 through July 21, 1987. Upon return, this individual will be flying the HANG's soon-to-be-received F-15 Eagles.

Minimum qualifications for the position include:

- Education: Bachelors degree is mandatory.
- Age: the candidate must complete the Academy of Military Science (AMS) and enter undergraduate pilot training prior to reaching age 27 1/2.
- Eye Sight: 20/20 uncorrected.
- Test requirements: the candidate must successfully pass the Air Force Officers Qualifying Test (AFOQT).

Interested applicants should contact the 154 COMPG/DPM (CMSgt Darryl Ho) at 449-5701. Applications are being accepted through January 16, 1987.

**NEW CINCPACAF Cont'd from page 2**

Combined Forces Command; and deputy commander, U.S. Forces Korea.

In September 1986, he assumed command of the newly activated 7th Air Force, Osan Air Base, Republic of Korea, while continuing to serve as deputy commander of U.S. Forces Korea and as deputy commander in chief, United Nations Command.

The general is a command pilot and his military decorations and awards include the Distinguished Service Medal, Legion of Merit with one oak leaf cluster, Distinguished Flying Cross with two oak leaf clusters, Bronze Star Medal, Meritorious Service Medal with one oak leaf cluster, Air Medal with 13 oak leaf clusters and Air Force Commendation Medal with one oak leaf cluster.

He was promoted to general December 16, 1986, with date of rank January 1, 1987.

General Gregory married the former Jane Cummins, also of Somerset, Ky. They have three sons: Jack Jr., an Air Force tactical fighter pilot, William and Robert.

**"EDDIE" ANDERSON**

The Hawaii Air National Guard has lost a close friend with the passing of Edward H. Anderson, Jr.

"Eddie" Anderson served with the Hawaii Army National Guard as an information specialist from November 1950 to April 1960. He was appointed as a Captain in the Hawaii Air National Guard in April 1966 and performed duty as the Information Officer with the 154 Combat Support Squadron and Headquarters Hawaii Air National Guard until he retired in December 1978 with the rank of Major.

"Eddie" Anderson was employed full-time as the Public Affairs Officer for the State Department of Defense from May 1957 to July 1967. During this period, he was honored by the State House of Representatives when they presented a resolution dated March 15, 1966 citing his achievements and contributions to the community. Among them was his instituting "Operations Clean-up" on Oahu and Kauai in 1962, 1963, and 1964, and by initiating a blood bank for Hawaii's indigents with the blood being donated by the Hawaii Air National Guardsmen. In 1967, he joined First Insurance as full-time public relations director and later became an assistant vice president.

Graveside services will be held at 4 p.m. Jan. 18 at Oahu Cemetery, at Judd Street and Nuuanu Avenue, Adjacent to the chapel.

**HELLO, GOODBYE**

by TSgt. Charles S. Gravitt

It was a busy year, 1986. I said goodbye to KITV (as Chris Casey, although you'll still hear my voice on promos that I record from time to time). HANG 40 dominated most of my time and was a great success due to the tremendous amount of talent that was pooled together in the HANG 40 committee. And, of course, I continued my work here on the Kukailimoku.

My affiliation with this newspaper for the past six-and-a-half years has been just as rewarding as my television career ever was. The reason for that is you. While you worked hard to make the 154th Composite Group the outstanding organization that it is, the Kukailimoku staff has worked hard to provide you with an informative view of what is going on around the Group. In other words, we've tried to do our job as well as you do yours. I hope we've succeeded.

The Kukailimoku has undergone a lot of changes, as some of you may remember, over the last few years, but I think we've achieved a level of continuity that has improved the quality of the service we provide. The credit for that goes to our commander, Col. John S. W. Lee, who has, from the start, recognized the importance of keeping our people informed and to Maj. Richard K. Shimomura, Public Affairs Officer, who motivated our staff to take personal pride in the product. It has been an extremely rewarding experience for me because of their support and because of your support.

The reason for this long dissertation is that I'm leaving as editor. Actually, I've already left, moving on to a new challenge—the Hawaii

**Hello, Goodbye continued**

Air National Guard Recruiting Office. In the past week, I've learned a lot about the important role our recruiters play in keeping the HANG strong and growing and about the terrific job they do. The product they have to sell is the best...and their hard work is essential in maintaining the HANG's high standards of excellence. If you're not aware of the great job they do you should become aware of it. And you can help, too, by referring to them friends or family members that you feel might fit into this elite corps we call the Hawaii Air National Guard.

The quality of the Kukailimoku will continue through the dedicated efforts of Maj. Shimomura, A1C Gaye Sakamoto, SSgt. George Galasinao, our friends in the photo lab and and the printing shop. My thanks to them for their support through the years. And my thanks to the HANG's top-notch recruiters for making me part of their team and being so helpful this past week and in weeks to come.

So give a pat on the back to the Kukailimoku staff the next time you see them. As for the Recruiting Office, if I could just get the name of one prospective Guard member from each of you...

**GOVERNOR'S RIGHTS**

**Cont'd from pg 1**

urged Congress to reconsider a law that requires a governor's consent before his state's National Guard may be mobilized for federal service. He said this requirement has been used by certain governors and special interest groups to affect U.S. foreign policy at the expense of important National Guard training.

The new legislation clarifies the sometimes conflicting messages sent to National Guardsmen, who have served both as state militiamen and federal reservists under legislation for more than 50 years.

**BUMPAH STIKA**

This has been very confusing. The latest word is that the Air Force no longer requires changing your bumper decal to the windshield until the expiration date. However, this is not true for the other services and you may encounter problems at Pearl Harbor, Schofield, or Kaneohe. To avoid problems, the 154th Security Police Flight (Pass and I.D.) will be able to re-issue your decal on the following dates and times:

- February 7 - 8:30 a.m. to 11:30 a.m.  
                  12:30 p.m. to 3:30 p.m.
- February 8 - 8:30 a.m. to 11:30 a.m.
- March 7 - 8:30 a.m. to 11:30 a.m.  
                  12:30 p.m. to 3:30 p.m.

Bring your vehicle registration, safety check, no fault insurance card, military I.D., and the old decal.

**POSITION VACANCY**

154th Composite Group Disaster Preparedness is looking for a disaster preparedness NCO (242X0). This is a drill status, E-5 slot. Persons applying must have a 5 level in their current specialty. Interested persons should contact either their unit career adviser or the recruiting office.

**ROYAL GUARD MEMBERS**

There will be a membership meeting today at 2:00 p.m. at RMS training room. All interested Hawaiians are invited to attend. Please be prompt.

**"Here's a tip . . .  
a Tax Tip."**

Don't Pass up the opportunity to get free information on numerous tax subjects. IRS has over 100 special publications to answer tax questions. In fact, Pub. 910, "Guide to Free Tax Services," describes all of the free tax services available. Call 1-800-424-FORM (3676) or the IRS Tax Forms number in your phone book to get a copy.
