154TH FIGHTER GROUP (AD) HAWAII AIR NATIONAL GUARD HICKAM AFB E2 July 67  
EDITOR: A3C LARRY EDWARDS ASSISTANT EDITOR: A3C Jon Anderson

ALOHA AND CONGRATULATIONS, CAPT.! WEAR YOUR RIBBONS.....

Captain Eddie Anderson, who for more than ten years has been full-time public affairs officer for the Hawaii National Guard, leaves that position at the end of this month. In August, he will become administrative assistant to the president of First Insurance Company.

Captain Anderson's departure from Fort Rucker will leave a very large puka in the full-time staff of the Guard. His imagination and drive have kept Hawaii's Air and Army National Guard constantly in the eyes of the public, and have gained national Federal recognition for Hawaii.

We in the Fighter Group are fortunate that "Eddie" will remain on drill status as Group PIO.

## CAPT. WHITE TO COLLEGE

Captain Randall White of Supply Squadron is to leave next month for the Command and Staff College at Maxwell AFB, Alabama. The course lasts 39 weeks, and selection for attendance is a distinct honor and privilege. Capt. White and his wife take with them the best wishes of the HANG for a successful year!

## WHERE'S YOUR NEWS?

If you're wondering why there is no news of your unit in this issue of Kukailimoku, it's because none is submitted. We want the news of our unit, and we'll print all we get, but somebody has to get it to us. We can't make it up.

A major change in the Uniform Policy of the Air Force has been made, and it came about largely through the efforts of the PACAF NCO advisory board. The board recommended that the USAF uniform board authorize the wearing of ribbons with 1505s. The proposal has been officially adopted, and the wearing of ribbon decorations with 1505s is now authorized. It is, of course, optional, but if you want to wear that shooting ribbon you got at Lackland, go ahead!

## HANG IN THE SOUTH PACIFIC

Under the coordination of Dr. Claude Caver, the C-54 recently flew a load of 1,800 pounds of medicine and medical instruments to Samoa. The items were samples and surplus donated by doctors in Hawaii for the people of Western Samoa, who are still suffering the effects of a disastrous hurricane last year.

On that same trip, the C-54 picked up Governor and Mrs. Burns and the official delegation to the coronation of the King of Tonga, and flew them to that country, about 500 miles south of Samoa. The coronation was July 4th, and the group returned to Hawaii July 7th. Newsman Roger Coryell of KHVH-TV was the only Hawaii newsman covering the affair, and there will be a half hour special on Channel 4 soon.

### SPEEDERS, BEWARE!

As you whip out of the parking lot and head for the gate today, keep this little tidbit in mind. Hickam Air Police are now using a mobile radar unit to check on speed violators. The unit can be in use any time, any place, and it's small and easily concealed. The speed limit on that back road out there is 25 mph, believe it or not... if you don't, that radar will be a believer out of you.
