PART III - SUMMARY OF COUNSELING

Complete this section during or immediately subsequent to counseling.

Key Points Discussion:

You sustained an injury / illness / disease while in a (circle one and initial) IDT / ADT / ADOS / AT / RMA / IADT / FTNGD-OS / T-10 status.

If the situation allows, you are required to seek medical treatment, evaluation, and follow-on care at a Military Treatment Facility (MTF). Should you elect to seek care at a non-MTF, you may be responsible for costs associated with seeking care.

You are required to report your injury to your Company Commander (_____) and encouraged to remit a completed copy your DA Form 2173 (Statement of Medical Evaluation and Duty Status), completed by the attending physician/hospital patient administrator NLT 5 days after sustaining the injury. It is encouraged that you include a copy of your relevant medical records with the DA Form 2173. Failure to notify your command within the required time will impede the timely processing of any potential Line of Duty (LOD) Investigation and other administrative actions necessary to ensure you can receive any required follow-on care at government expense. Should you neglect to report your injury in a timely manner, you have 180 calendar days from the end of the qualified duty status to request an LOD determination for the purpose of determining eligibility for medical and dental treatments and incapacitation pay entitlements.

You are encouraged to provide a verbal or written statement detailing the events leading up to your injury/illness/disease, however you are within your legal rights to decline to do so.

Please note, incurring an injury during an "authorized status" does not necessarily support a determination that the injury/illness/disease was sustained "In the Line-Of-Duty" in and of itself.

OTHER INSTRUCTIONS

This form will be destroyed upon: reassignment (*other than rehabilitative transfers*), separation at ETS, or upon retirement. For separation requirements and notification of loss of benefits/consequences see local directives and AR 635-200.

Plan of Action (Outlines actions that the subordinate will do after the counseling session to reach the agreed upon goal(s). The actions must be specific enough to modify or maintain the subordinate's behavior and include a specified time line for implementation and assessment (Part IV below).

____ 1. I understand that am encouraged to seek medical care at a Military Treatment Facility (MTF), if the situation allows. Should I opt to seek care at a non-MTF (unless authorized with a MMSO-01 or MMSO-02), I may be held financially responsible for expenses incurred as they are related to my injury/illness/disease.

____ 2. I will provide a copy of my DA Form 2173 (section I completed by the attending physician or hospital patient administrator) to my Company Commander NLT 5 days following the incident.

____ 3. I have been encouraged to provide copies of my relevant medical records as supporting documentation regarding the injury/illness/disease I sustained and the care I received NLT 5 days following the incident.

____ 4. I have been informed of my right to decline to provide a statement or written correspondence detailing the events leading up to my injury/illness/disease.

____ 5. I understand that incurring an injury during an "authorized status" does not necessarily support a determination that the injury/illness/disease was sustained "In the Line-Of-Duty" in and of itself.

____ 6. I understand failure to notify my command within the suggested time will impede the timely processing of any potential Line of Duty (LOD) Investigation and other required administrative actions. I have 180 days from the end of the qualified duty status to request a LOD determination for the purpose of determining eligibility for medical and dental treatments and incapacitation pay entitlements.

____ 7. A request for a LOD determination does not automatically entitle me to receive treatment. I will be instructed, in WRITING, by my assigned Medical Case Manager to attend any scheduled follow-on appointments related to the initiating injury/illness/disease.

Session Closing: (The leader summarizes the key points of the session and checks if the subordinate understands the plan of action. The subordinate agrees / disagrees and provides remarks if appropriate.)
