

# HIEMA TRAINING & EXERCISE

## BULLETIN

October 2025

Aloha Kākou,  
HIEMA is aware that several FEMA National Disaster and Emergency Management University (NDEMU) websites are temporarily unavailable due to the lapse in federal funding. Examples of FEMA webpages that are affected and currently redirect to [FEMA.gov](https://www.fema.gov):

- NDEMU Independent Study Courses
- NDEMU Student Self Service Portal
- National Emergency Training Center (NETC) Online Admissions (for NDEMU and National Fire Academy Courses)
- NDEMU Curriculum information

As of October 1, 2025, per FEMA:  
“NOTICE: Due to the lapse in federal funding, this website will not be actively managed. This website was last updated on September 30, 2025, and will not be updated until after funding is enacted. As such, information on this website may not be up to date. Transactions submitted via this website might not be processed and we will not be able to respond to inquiries until after appropriations are enacted.”

Despite the uncertainty we are facing, HIEMA T&E will continue to support course deliveries at the same standards and practices as we have in place. Despite potential impacts such as students’ ability to register through NETC admissions and the distribution of certificates by FEMA, scheduled L-course deliveries will be delivered, given enrollment thresholds are met.

While HIEMA navigates the short and long-term effects of the current federal government shutdown, we will continue to support and provide trainings to the best of our capabilities. Administrative burdens of getting federal level courses certified will be the responsibility of T&E.

For this bulletin, NEW opportunities are **BOLDED**. For questions or guidance on how to apply, please email [hiema.trainex@hawaii.gov](mailto:hiema.trainex@hawaii.gov)

*In Community,  
Nica, Lolo, Chad, Ileana, & Shannon  
Training & Exercise*

October 16: ESF-2 Communications Exercise [COMDEX] (Maui)

October 23-24: G400 – Advanced ICS for Command & General Staff – Complex Incidents (O’ahu)

### DISTANT TSUNAMI WORKSHOP

HIEMA will host a Distant Tsunami Workshop on Tuesday, October 28. This session will focus on key lessons learned and corrective actions from the July 2025 real-world tsunami warning as well as insights from the 2024 Distant Tsunami Exercise. The workshop offers an opportunity for emergency management partners to reflect on recent events, strengthen coordination, and build readiness for future tsunami threats.

# HIEMA TRAINING & EXERCISE

## Looking Ahead

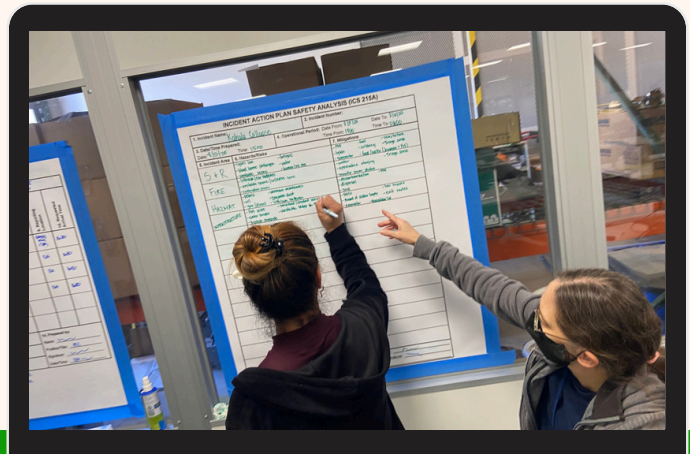

### October 2025 to January 2026

November 18: State Emergency Response Team (SERT) Orientation (O'ahu)	<b>February 11: Mass Care Workshop (O'ahu)</b>
<b>December 3: WebEOC II (O'ahu)</b>	

### INTEGRATED PREPAREDNESS PLANNING WORKSHOP (IPPW)

HIEMA will conduct its annual IPPW on November 25<sup>th</sup> in Diamond Head. The workshop allows partners to coordinate preparedness activities across sectors in order to maximize the use of resources and prevent duplication of effort. With limited resources and budget constraints, this is an opportunity for county, state, federal, private sector & nonprofit partners within emergency management to share their priorities and planned focus areas around training and exercise. HIEMA T&E will send invites in early October.

**Have an upcoming training or exercise that's open to the public? Let us know!**

If your organization is conducting an event that is open to county, state, federal, nonprofit, private sector partner etc. participation, email the details to HIEMA T&E and we'll include it in a future update.
