The Hawaii Emergency Management Agency (HI-EMA), situated within the State of Hawaii Department of Defense, is the state's designated emergency management agency, charged with working with all levels of government, non-governmental organizations and the private sector to prepare for, respond to, recover from and mitigate against all hazards that threaten Hawaii.

The all-hazards Base Plan of the was *State of Hawaii Emergency Operations Plan (HI-EOP)* was released in May 2015. Both Incident Annexes and State Emergency Support Function Annexes are supported as necessary with appendices containing tactical references and tools, such as operational guides and checklists.

It is imperative to note that the Offeror submit only one original and the required number of copies. DO NOT SUBMIT MORE THAN ONE ORIGINAL.

Offeror is encouraged to submit typewritten offers. If handwritten, it should be clearly printed. Offeror is cautioned that illegible offers of any item(s) may be automatically rejected to avoid any errors in interpretation by the reviewers during the evaluation process.

Copies of documents transmitted by Offerors via facsimile machines shall be limited to the modifications or withdrawal of an offer pursuant to HAR Sections 3-122-108 and 3-122-28, respectively.

### **3.12 RECEIPT AND REGISTER OF PROPOALS**

Offers shall be received at the Department of Defense, Engineering Office, located in Building 306-A, Room 228, 3949 Diamond Head Road, Honolulu, HI 96816-4495, no later than the date and time stated in Section 1.4, Significant Dates, as amended. Timely receipt of offers shall be evidenced by the date and time registered by the Engineering Office time stamp clock. Offers received after the deadline shall be returned unopened.

If the Offeror chooses to deliver its offer by United States Postal Service (USPS), please be aware that the USPS does not deliver directly to the receiving office, but to a central mailroom. This may cause a delay and the offer may not reach the Engineering Office until after the deadline, resulting in automatic rejection.

### **3.13 PROPOSAL, STRATEGY AND PROJECTED TIMETABLE**

Offeror shall submit an overall strategy, timeline and plan for the work proposed as well as expected results and possible shortfalls.

### **3.14 BEST AND FINAL OFFER (BAFO)**

If the State determines a BAFO is necessary, it shall request one from the Offeror. The Offeror shall submit its BAFO and any BAFO received after the deadline or not received shall not be considered.

### **3.15 MODIFICATION PRIOR TO SUBMITTAL DEADLINE OR WITHDRAWAL OF OFFERS**

3.15.1 The Offeror may modify or withdraw a proposal before the proposal due date and time.

3.15.2 Any change, addition, deletion of attachment(s) or data entry of an Offer may be made prior to the deadline for submittal of offers.

### **3.16 MISTAKES IN PROPOSALS**

3.16.1 Mistakes shall not be corrected after award of contract.

3.16.2 When the Procurement Officer knows or has reason to conclude before award that a mistake has been made, the Procurement Officer may request the offeror to confirm the proposal. If the Offeror alleges mistake, the proposal may be corrected or withdrawn pursuant to this section.

3.16.3 If discussions are not held, or if the best and final offers upon which award will be made have been received, mistakes shall be corrected to the intended correct offer whenever the mistake and the intended correct offer are clearly evident on the face of the proposal, in which event the proposal may not be withdrawn.

3.16.4 If discussions are not held, or if the best and final offers upon which award will be made have been received, an Offeror alleging a material mistake of fact which makes a proposal non-responsive may be permitted to withdraw the proposal if: the mistake is clearly evident on the face of the proposal but the intended correct offer is not; or the Offeror submits evidence which clearly and convincingly demonstrates that a mistake was made.

Technical irregularities are matters of form rather than substance evident from the proposal document, or insignificant mistakes that can be waived or corrected without prejudice to other Offerors; that is, when there is no effect on price, quality, or quantity. If discussions are not held or if best and final offers upon which award will be made have been received, the Procurement Officer may waive such irregularities or allow an Offeror to correct them if either is in the best interest of the State. Examples include the failure of an Offeror to: return the number of signed proposals required by the request for proposals; sign the proposal, but only if the unsigned proposal is accompanied by other material indicating the Offeror's intent to be bound; or to acknowledge receipt of an amendment to the request for proposal, but only if it is clear from the proposal that the Offeror received the amendment and intended to be bound by its terms; or the amendment involved had no effect on price, quality or quantity.

## SECTION FIVE

### CONTRACTOR SELECTION AND CONTRACT AWARD

#### 5.1 EVALUATION OF PROPOSALS

The Procurement Officer, or an evaluation committee of at least three (3) qualified State employees selected by the Procurement Officer, shall evaluate proposals. The evaluation will be based solely on the evaluation criteria set out in Section Four of this RFP.

Prior to holding any discussion, a priority list shall be generated consisting of offers determined to be acceptable or potentially acceptable. However, proposals may be accepted without such discussions.

If numerous acceptable and potentially acceptable proposals are submitted, the evaluation committee may limit the priority list to the three (3) highest ranked, responsible Offerors.

- A. Proposal Clarifications: In the event the Selection Committee finds, in the course of its review, that clarification of a proposal is necessary and/or is required for a fair and objective evaluation, such clarification will be requested in writing to the proposer, the proposer shall respond in writing. The same confidentiality will be observed in this exchange as in the original submittal. Since time is of the essence, if a response is not received in the time allowed, evaluations will be made accordingly.
- B. Non-Responsive Proposals: During the evaluation process it may become apparent that one or more of the proposals do not quality on the basis of technical deficiencies or non-responsiveness to the RFP requirements. If required items are not included in the proposal as described in the RFP documents, the Offeror's proposal will be deemed non-responsive. If so determined by the Selection Committee, these proposals will be recommended to the Procurement Officer for disqualification and returned to the proposer. In certain situations, the non-responsive portion may be a minor or easily adjusted modification in an otherwise responsive proposal, and the Department may waive such irregularities. The decision of the Department in this matter is final and no appeal will be considered. Minimum requirements such as experience, insurance, tax clearance are considered mandatory and will not be waived.

#### 5.2 DISCUSSION WITH PRIORITY LISTED OFFERORS

The State may invite priority listed Offerors to discuss their proposals to ensure thorough, mutual understanding. The State, in its sole discretion, shall schedule the time and location for these discussions, generally within the timeframe indicated in *RFP Schedule and Significant Dates*. The State may also conduct discussions with priority listed Offerors to clarify issues regarding the proposals before requesting Best and Final Offers, if necessary. **It is DOD's intent to award a contract without discussions** but, DOD reserves the right to enter into discussions, as indicated above, if required.

**LATE SUBMITTAL OF OFFER, LATE WITHDRAWAL, AND LATE MODIFICATION  
[HAR §3-122-16.08]**

- A. Proposals or modifications received after the established proposal due date and time will not be considered for award, and shall be returned to the offeror unopened, as soon as practicable, accompanied by a letter stating the reason for its return.
- B. Requests for withdrawal of proposals received after the established proposal due date and time, except as provided for in §3-122-31 HAR regard mistakes in bid, may not be accepted, and shall be responded to with a letter stating the reason for the non-acceptance.

## OVERVIEW OF THE RFP PROCESS

- 1 The RFP is issued pursuant to Subchapter 6 of HAR Chapter 3-122, implementing HRS §103D-303.
- 2 The procurement process begins with the issuance of the RFP and the formal response to any written questions or inquiries regarding the RFP. Changes to the RFP will be made only by Addendum.
- 3 Proposals shall be received in accordance with section 3.11. The register of proposals and Offerors' proposals shall be open to public inspection after posting of the award.  
  
All proposals and other material submitted by Offerors become the property of the State and may be returned only at the State's option.
- 4 The Procurement Officer, or an evaluation committee approved by the Procurement Officer, shall evaluate the proposals in accordance with the evaluation criteria in Section Four.
- 5 Proposals may be accepted on evaluation without discussion. However, if deemed necessary, prior to entering into discussions, a "priority list" of responsible Offerors submitting acceptable and potentially acceptable proposals shall be generated. The priority list may be limited to a minimum of three responsible Offerors who submitted the highest-ranked proposals. The objective of these discussions is to clarify issues regarding the Offeror's proposal before the BAFO is tendered if required.
- 6 If during discussions there is a need for any substantial clarification or change in the RFP, the RFP shall be amended by an addendum to incorporate such clarification or change. Addenda to the RFP shall be distributed only to priority listed Offerors who submit acceptable or potentially acceptable proposals.
- 7 Following any discussions, Priority Listed Offerors will be invited to submit their BAFO, if required. The Procurement Officer or an evaluation committee reserves the right to have additional rounds of discussions with the top three (3) Priority Listed Offerors prior to the submission of the BAFO.
- 8 The date and time for Offerors to submit their BAFO, if any, is indicated in Section 1.4, RFP Schedule and Significant Dates. If Offeror does not submit a notice of withdrawal or a BAFO, the Offeror's immediate previous offer shall be construed as its BAFO.
- 9 After receipt and evaluation of the BAFOs in accordance with the evaluation criteria in Section Four, the Procurement Officer or an evaluation committee will make its recommendation. The Procurement Officer will award the contract to the Offeror whose proposal is determined to be the most advantageous to the State taking into consideration price and the evaluation factors set forth in Section Four.

- 10 The contents of any proposal shall not be disclosed during the review, evaluation, or discussion. Once award notice is posted, all proposals, successful and unsuccessful, become available for public inspection. Those sections that the Offeror and the State agree are confidential and/or proprietary should be identified by the Offerors and shall be excluded from access.
- 11 The Procurement Officer or an evaluation committee reserves the right to determine what is in the best interest of the State for purposes of reviewing and evaluating proposals submitted in response to the RFP. The Procurement Officer or an evaluation committee will conduct a comprehensive, fair and impartial evaluation of proposals received in response to the RFP.
- 12 The RFP, any addenda issued, and the successful Offeror's proposal shall become a part of the contract. All proposals shall become the property of the State of Hawaii.
