JOB VACANCY ANNOUNCEMENT FY17-033 AGR-AIR

25 August 2017

POSITION: Maintenance Management Superintendent, AFSC 2R090, POSNR 0962759, FAC 21B100, 154th Maintenance Operations Flight (154 MOF) (To establish a List of Eligible)

TYPE OF APPOINTMENT: Full-Time Military Duty (Title 32, USC 502(f)) – Three (3) year tour length/On-Board AGRS see **(See NOTES TO APPLICANTS)**

LOCATION: Joint Base Pearl Harbor Hickam, Hawaii

CLOSING DATE: 22 September 2017

RECRUITMENT AREA:

1st Area of Consideration: Present enlisted members TSgt (E-6) to SMSgt (E-8) of the US Armed Forces within the State of Hawaii.

2nd Area of Consideration: Present enlisted members TSgt (E-6) to SMSgt (E-8) of the US Armed Forces Nationwide.

SUMMARY OF DUTIES: AFSC 2R090: Monitors, collects, assembles, and audits data for reports and briefings. Initiates special studies and investigations, and performs statistical analysis. Informs managers of significant factors affecting the mission. Manages and operates maintenance management information systems (MIS). Plans, schedules and organizes use and maintenance of aircraft, engines, munitions, and associated aerospace ground equipment (AGE). Supervises documentation and maintenance of aircraft, engine, missiles, munitions, and associated AGE records. Maintains generation flow plans for units required meeting emergency war order and wartime taskings. Performs maintenance management functions. Supervises, directs, and controls collection, auditing, evaluation, and analysis of MIS data to include auditing source data for accuracy, timeliness, and compliance with directives. Supervises analysis of deficiencies in areas such as equipment performance, materiel consumption, scheduling, management, and resources; their impact on the maintenance mission; and results of corrective actions. Reviews and approves written reports and special studies for presentation to senior leaders. Coordinates with appropriate information management/processing centers to ensure automated systems capability and compatibility with customer requirements are met. Forwards requirements and enhancements to higher headquarters for approval. Plans, organizes, directs and controls scheduling of aerospace vehicle maintenance and utilization requirements. Develops plans and establishes production schedules to meet mission requirements. Determines maintenance capabilities to aid in developing operational schedules. Prepares weekly, monthly, and quarterly utilization schedules for known maintenance and operational

JOB VACANCY ANNOUNCEMENT FY17-033 AGR-AIR

mission and training requirements. Coordinates with base activities to ensure support is available to meet schedules. Supervises development of generation flow plans for unit emergency war order and wartime taskings within unit Designated Operational Capability (DOC) statement. Supervises review, evaluation, and filing of documented information for planning and scheduling maintenance actions. Manages the aircraft configuration, TCTO, special inspection, and time change program and their related automated subsystems. Manages Maintenance Operations Center (MOC). Monitors and coordinates sortie production, maintenance production, and execution of the flying and maintenance schedules. Maintains visibility of fleet health indicators. Establishes priorities for competing, limited maintenance resources, based on daily flying schedule and maintenance priorities. Ensures aircraft status is properly reported and maintained. Determines long-range fleet health maintenance priorities. Provides supply liaison and engine management support for flight line and back shop maintenance requirements. Schedules and monitors workload requirements. Resolves problems and interprets technical publications for inspecting, maintaining, and modifying aircraft and support equipment. Ensures unit meets mobility requirements. Ensures the appropriate maintenance and operations commanders are advised of maintenance capabilities, limiting production factors, and adherence to maintenance schedules.

Details of the above stated "SUMMARY OF DUTIES" are contained in the applicable description of duties and responsibilities in the Air Force Enlisted Classification Directory (AFECD) located at: <https://gum-crm.csd.disa.mil/app/answers/list/kw/afecd/> or the Air Force Officer Classification Directory (AF OCD) located at: <https://gum-crm.csd.disa.mil/app/answers/list/kw/afocd/>.

Per ANGI 36-101, paragraph 5.2. The intent of the AGR program is to assess AFSC qualified individuals. Member must be eligible to be assigned to DAFSC 2R090.

For award of AFSC 2R090, qualification in and possession of AFSC 2R071 or 2R171 is mandatory. Also, experience is mandatory managing or directing functions such as maintenance analysis, plans, scheduling, documentation, engine management, supply liaison, or MOC.
