I checked in DCPDS and it show it at the HRO level. It's still processing but seems like it's approved. I'll check again with HRO.

No changes sir in my SF50, attached are snap shots on MyBiz. Maybe it is still processing then if you say it got approved. And for the raise I did not receive any email, but I was just going off what I was told from MSgt Masuda, apparently some had an increase on their hourly rate. Let me confirm and figure this one out sir. Thank you for your assistance.

Aldenjay,
Jeanna,

Please check your SF 50 for the increase to WG-06. I checked today and looks like it got approved. If not then it is still processing and you should get back pay from the time HRO approved. Let me know what you find.
