

DEPARTMENT OF DEFENSE

ANNUAL REPORT Fiscal Year 1996

Maj. Gen. Edward V. Richardson, Adjutant General

Dear Governor Cayetano:

Fiscal year 1996 saw several milestones in the history of the State of Hawaii Department of Defense.

The Hawaii Army National Guard (HIARNG) had a productive year with annual training deployments to Thailand, Panama, Washington State, Alaska and Schofield Barracks. In addition, four members of the HIARNG were mobilized on active duty for Operation Joint Endeavor, the peacekeeping effort in Bosnia.

The Hawaii Air National Guard (HIANG) deployed on operational contingencies to Wake Island, where personnel assisted with the repatriation of illegal immigrants; Pisa, Italy, where HIANG tankers refueled NATO aircraft patrolling the no-fly zone of Bosnia; Panama, where F-15 fighters intercepted aircraft attempting to enter the United States with illegal drugs; Taszar, Hungary, where air traffic controllers helped direct the flow of people and supplies to Bosnia for Operation Joint Endeavor; and to Incirlik, Turkey, where HIANG F-15s were based while patrolling the northern no-fly zone of Iraq.

The State Civil Defense continued to develop its disaster mitigation and response plans for Hawaii. The Pacific Disaster Center on Maui, dedicated in February 1996, is just one of the new initiatives that will help emergency managers better respond to natural disasters in the 21st Century.

In addition to providing daily services for Hawaii's veterans, the Office of Veterans Services broke new ground for a veterans cemetery on Lana'i and planned for upgrades to the veterans cemetery in Makawao, Maui. Construction continued at cemeteries on Kauai and the Big Island.

The State Department of Defense has a record of achievement of which the people of Hawaii can be proud. We look forward to serving our state and nation in Fiscal Year 1997.

Sincerely,

A handwritten signature in cursive script that reads "Edward V. Richardson".

Department of Defense

Mission

The mission of the State of Hawaii, Department of Defense under the auspices of the Hawaii National Guard (HING) and State Civil Defense, is to assist authorities in providing for the safety, welfare and defense of the people of Hawaii. The department continuously strives to maintain its readiness to respond to the needs of people in the event of war or disasters, whether natural or human-caused. Upon activation by the Governor of Hawaii, the department is prepared to provide professional personnel, quality services and well-maintained equipment to assist during emergencies.

The Hawaii Army and Air National Guards also train to meet their federal mission, should they receive a presidential call to duty in times of national emergency.

The Office of Veterans Services (OVS) serves as the single point of contact in state government for veterans' services, policies and programs. The OVS also oversees the construction and administration of the Hawaii State Veterans Cemetery and neighbor island cemeteries.

Personnel

The Department of Defense represents

a varied mixture of federal, state, active guard/reserve, and drill-status National Guard members. This force includes, as of Sept. 30, 1996, 235 state employees, 956 federal employees, 342 Active Guard/Reserve, and 5,381 drill-status Army and Air National Guard members.

Organization

The State Department of Defense is made up of three major divisions: one inactive division, six key staff offices and the Office of Veterans Services.

The three major divisions are the Hawaii Army National Guard, Hawaii Air National Guard, and State Civil Defense.

A fourth division, which is currently inactive, is the Hawaii State Defense Force. The Hawaii State Defense Force may be activated should the need arise.

The six key staff offices provide support services to the three active divisions and other activity centers within the department. The key staff offices include the Administrative Services Office, U.S. Property and Fiscal Office, Human Resources Office, Engineering Office, Staff Judge Advocate Office and Public Affairs Office.

The special staff includes the Quality Advisor, Senior Army Advisor, Air Force

Senior Advisor, Senior Enlisted Advisor, Inspector General, and State Family Program Coordinator.

The adjutant general is the executive head of the department. In addition to being a member of the governor's cabinet, the adjutant general is the commander of the Hawaii Army National Guard (HIARNG) and Hawaii Air National Guard (HIANG) and the director of State Civil Defense.

Hawaii National Guard

The Hawaii Army National Guard and Hawaii Air National Guard collectively form the Hawaii National Guard. Under the banner of the Hawaii National Guard, the Army and Air National Guard divisions maintain, in a style unique to their military institutions, a history rich in traditions, service to country, states and communities, and high marks of excellence.

State Civil Defense

The primary mission of State Civil Defense is to minimize loss of life, reduce property damage, and restore essential public services and facilities devastated by natural, or human-caused disasters. In the event of war, it would provide for the welfare and safety of citizens, ensure the continuance and/or reconstitution of state government and mobilize and manage state resources.

Office of Veterans Services

The Office of Veterans Services (OVS), which was administratively attached to the Department of Defense in July 1988, serves as the primary state agency responsible for developing and managing veterans' programs, policies and activities. The OVS is also charged with operating the Hawaii State Veterans Cemetery on Oahu, and providing funding, engineering and supervision for state cemeteries on the neighbor islands.

Highlights and Significant Events

Fiscal year '96 provided numerous opportunities to reach out to the community statewide and even globally.

The Hawaii National Guard Youth Challenge program graduated another 192 corpsmembers bringing the total number of graduates to 250.

Youth ChalleNGe is a two-phase, military-oriented program designed to train and equip at-risk youths, ages 16-18, with the skills necessary to earn a Competency-Based (CB) high school diploma or mainstream back into their high school. Phase I is a five-month residential phase at Barbers Point Naval Air Station, where participants are taught academics and life-coping skills. It is followed by a 12-month post-residential phase.

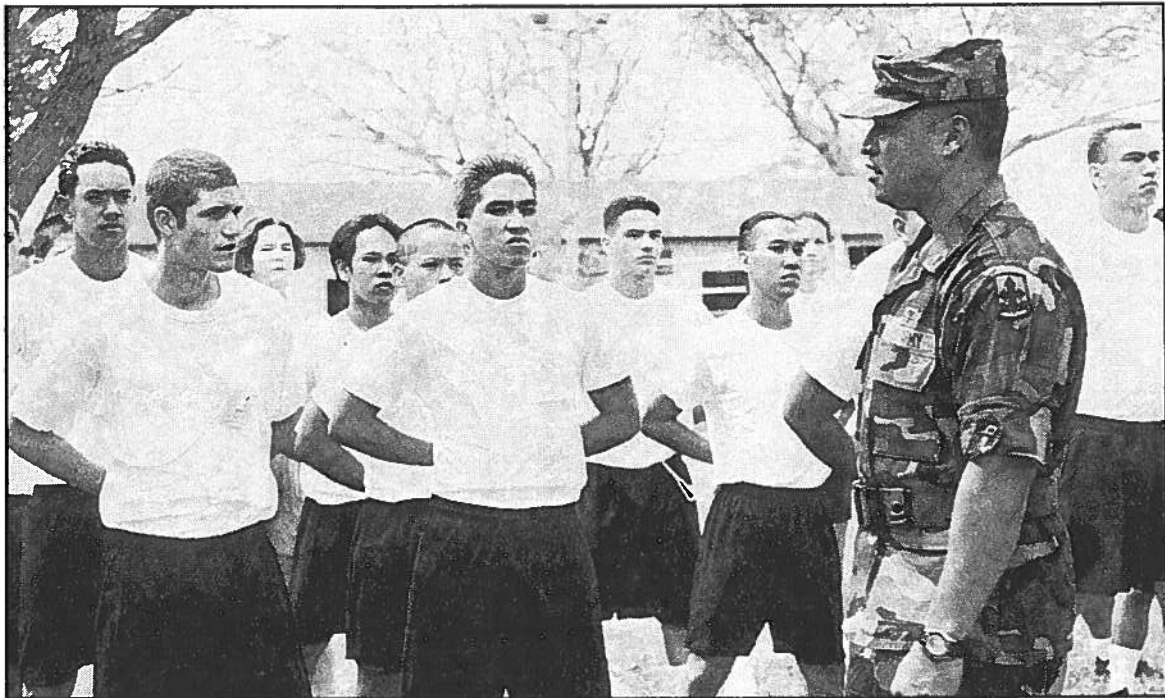

In addition, the department provided Hawaii's families with drug awareness and gang education and training, through its Parent to Parent Program. The department also participated in numerous community service projects such as the March of Dimes Walk-a-thon, Aloha United Way and the Combined Federal Campaign.

In January 1996 the Hawaii Army National Guard dedicated the Molokai Armory, and presented to the community one of the island's lost treasures. What appeared to be a corroding piece of junk on the front lawn of the old armory site turned out to be a King David Kalakaua era field piece. The origin of the cannon was discovered by Chief Warrant Officer Robert Paoa and later restored by a volunteer team, in their spare time from Guard's Combined Support Maintenance Shop #1. The cannon was unveiled during the Jan. 7, 1996 dedication ceremony.

In September 1995, the DOD played a leading role in "Hawaii Remembers" and other events commemorating the 50th Anniversary of the end of World War II.

AT EASE--Youth Challenge corpsmembers stand in formation to receive instructions from National Guard personnel. The 5-month residential phase of the program is designed to teach self-discipline, leadership and responsibility and offers the student an opportunity to work on obtaining a high school diploma.

Hawaii Army National Guard photo

Hawaii National Guard Youth Challenge Program

Mission

The Hawaii National Guard Youth Challenge Program seeks to establish a comprehensive intervention program to reclaim youth-at-risk based on National Guard and Department of Education training requirements.

The Hawaii National Guard Youth Challenge Program (HING YCP) is a federally-funded pilot program that targets high school at-risk students 16-18 years of age.

This 17-month program offers Hawaii's youth an opportunity to change their future positively. The initial program consists of a five-month residential phase where the corpsmembers learn self-discipline, leadership, and responsibility while working to complete their high school diploma requirements. They live and work in a controlled military environment, at Barbers Point Naval Air Station, that encourages teamwork and personal growth.

A second 12-month monitoring and mentoring phase requires that corps members enroll in higher education or

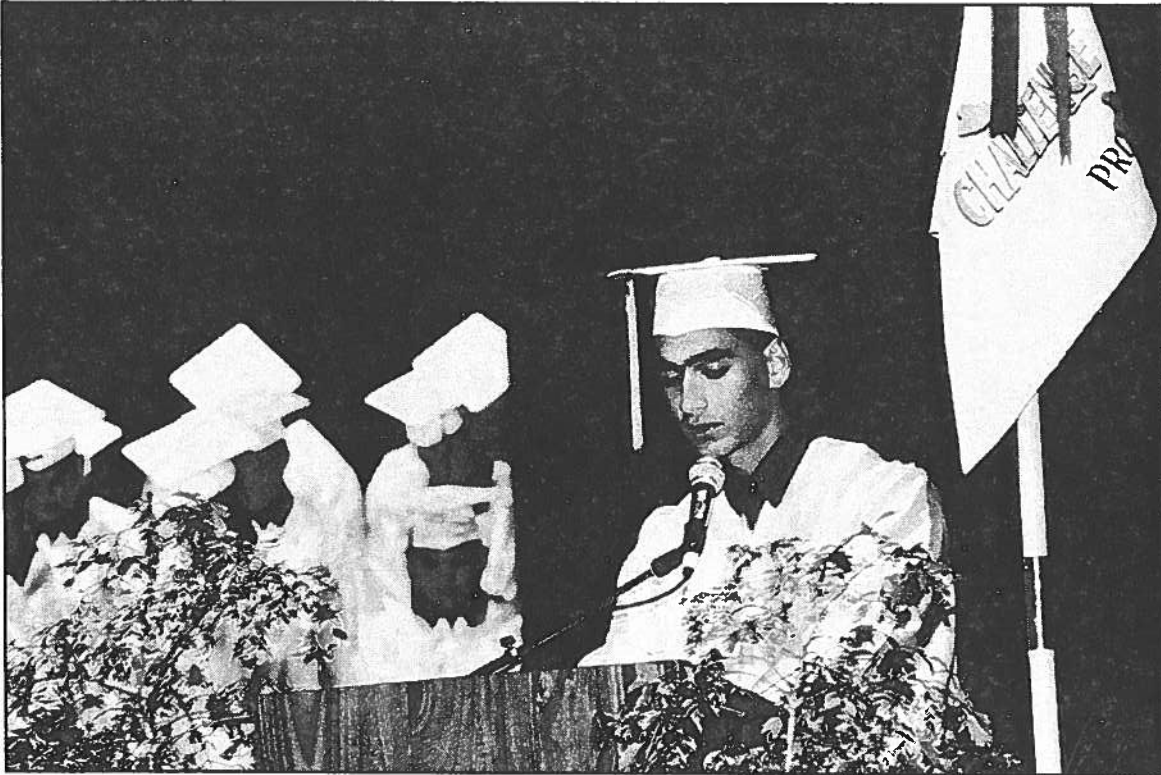

obtain full-time employment. Sixteen-year-old students are mainstreamed back to their respective high schools, at their appropriate grade level, to earn their high school diplomas.

All successful graduates of the first phase will receive a \$500 stipend as a kick-start to continue their education or to obtain gainful employment. Volunteer mentors, many of whom are National Guard personnel, track and counsel graduates regularly and help them to achieve their goals.

Noteworthy was the formation of an advisory committee composed of business, community, governmental, and military leaders. The members of the committee have graciously volunteered their services to secure jobs for our graduates and scholarship opportunities. Moreover, they have gathered support for the program from our local communities and assisted with the recruitment of volunteer mentors.

Personnel

The program is staffed by trained, active and retired members of the Hawaii National Guard (Army and Air), along with state certified teachers and

A DREAM COME TRUE--
Corpmember J. W. Williams delivers the benediction for the Youth ChalleNGe Class of 96-3. The graduate is currently a member of the Hawaii Army National Guard.
Sgt. 1st Class Wayne T. Iha

counselors. The residential program is conducted twice yearly with an enrollment of approximately 100 students per class chosen from qualified male and female applicants from around the state.

Organization

The HING YCP director reports directly to the Adjutant General and works closely with personnel from the National Guard Bureau-Public Affairs.

SUCCEEDING AGAINST THE ODDS-- *These Youth ChalleNGe graduates were showered with balloons and leis during their graduation.*

Hawaii Army National Guard

Mission

The Hawaii Army National Guard (HIARNG) continually trains to maintain its readiness for state or federal active duty. It is prepared for local or global assignments, should the Governor of Hawaii or President of the United States order it to active duty.

Personnel

The authorized strength of the HIARNG decreased from 4,082 to 3,564, as a result of reorganization and restructuring. The assigned strength of the HIARNG stood at 2,995 at the end of fiscal year 1996, a decrease of 250 members from the previous fiscal year and 84.03 percent of the authorized 3,564 positions. This number included 293 commissioned officers, 96 warrant officers and 2,606 enlisted personnel.

Organization

The HIARNG consists of the Head-

quarters, State Area Command, 29th Separate Infantry Brigade (SIB), 103rd Troop Command, 117th Public Affairs Team, Hawaii Military Academy (Detachment 2), Ordnance Training Battalion (OTB) and Selective Service Section.

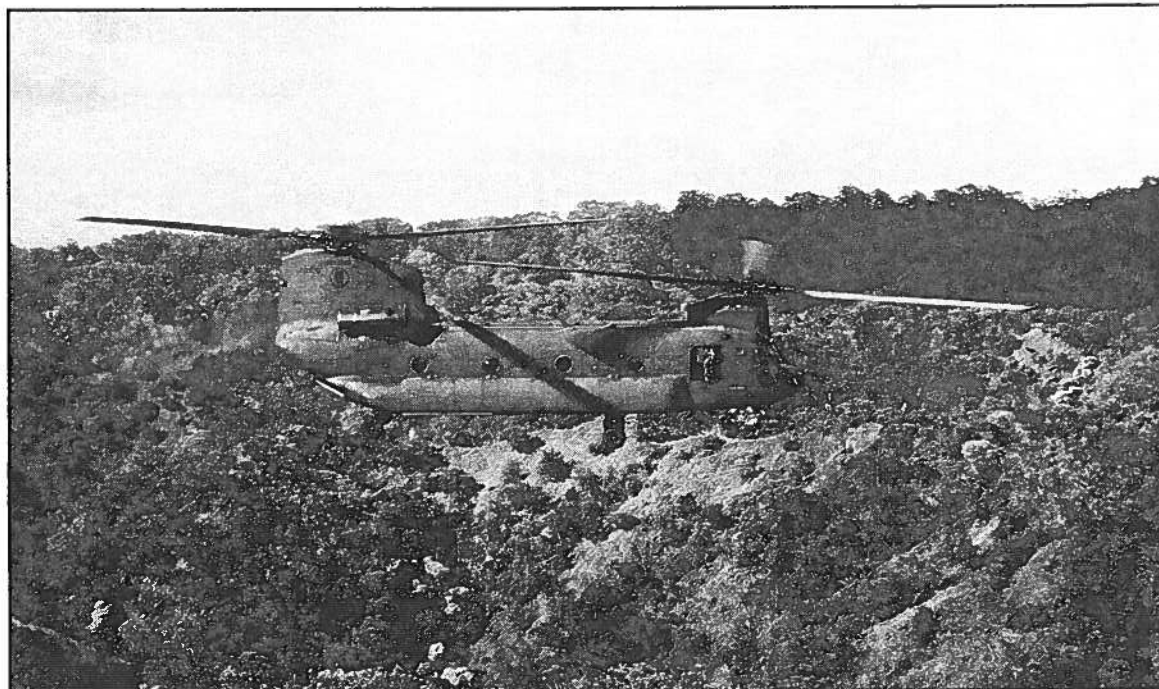

29th Separate Infantry Brigade (SIB)

The 29th Separate Infantry Brigade (SIB) is the largest unit in the Hawaii Army National Guard. The brigade has units located on the islands of Oahu, Molokai, Maui, Kauai, and Hawaii.

It is also comprised of one infantry battalion located in California, and a cavalry troop located in Oregon. It trains to ensure its readiness for the Hawaii National Guard's state and federal missions. As of September 30, 1996, a total of 2,040 soldiers were assigned. This included 159 officers, 15 warrant officers, and 1,866 enlisted members.

The brigade consists of a headquarters and headquarters company, two infantry battalions, a field artillery battalion, and a support battalion. This

This Hawaii Army National Guard CH-47D Chinook helicopter and crew practices picking up loads. The HIARNG helicopter is part of Company C, 193rd Aviation
Photo by Gerd van Roye

mix of units and equipment provides the brigade commander with a variety of options when employing the brigade for federal or state missions. Upon federal mobilization, the brigade would receive its third "round-out" infantry battalion, the 100th Battalion, 442nd Infantry, assigned to the U.S. Army Reserve.

Hawaii's 29th SIB has been functioning as one of the 15 elite enhanced readiness brigades within the National Guard since September 1995.

103rd Troop Command

The mission of the 103rd Troop Command is to provide command and control over its assigned units. The command's assigned strength, as of September 30, 1996, was 632. This includes 40 officers, 51 warrant officers and 541 enlisted members.

The troop command is headquartered at Waiawa Armory in Pearl City, Oahu. It is one of the two major commands within the Hawaii Army National Guard. The 103rd includes two aviation detachments at Hilo International Airport. The aviation companies at Wheeler Army Air Field provide medium lift and aviation intermediate maintenance support to both Active and Reserve Component units. The aviation

detachments at Hilo provide a highly trained pool of qualified aviators and technical aviation maintenance personnel in support of counter drug and aeromedical operations.

Other support units within the 103rd include a division rear operations cell which supports the 25th Infantry Division (Light), a personnel services detachment which provides administrative support to all units in the HIARNG, a facility engineer detachment whose capabilities include both vertical and horizontal construction support. In March 1996, the 111th Army Band became the newest unit assigned to the 103rd Troop Command. The 111th Army Band is a fully organized band with concert, jazz ensemble, and marching band capabilities. They provide music at parades, special events, and National Guard and active duty functions.

Aviation

The Army Guard includes five aviation units. The Headquarters State Area Command aviation section provides troop and supply transport with its C-26B Metroliner, a twin-engine, fixed-wing 18-passenger airplane, based at Wheeler. The aircraft transports personnel and supplies as well as

burial honor guards for veterans' burials to the neighbor islands.

The Reconnaissance and Interdiction Detachment (RAID) supports state counterdrug operations with two specially equipped OH-58A Kiowa helicopters based in Hilo. The five-man unit works closely with law enforcement agencies in marijuana eradication and surveillance missions. They are also capable of performing night search and coordinating rescue support using the helicopters' thermal imaging system.

The Medical Combat Enhanced Capability Aviation Team (CECAT), also based in Hilo, was activated in September 1995 with the mission of providing medical evacuation support. The unit has four UH-60A Blackhawk helicopters, each capable of transporting six litter patients. The medical aviation unit replaces the 451st and 452nd Aviation Detachments which flew the UH-1H Iroquois (Huey) helicopters.

The Wheeler based medium lift helicopter unit, Company C, 193rd Aviation, is authorized 16 CH-47D Chinook helicopters with 14 currently on hand. The unit can be configured to provide troop and an artillery air assault, or to transport cargo and vehicles

by internal and/or external loads. The aircraft is also used in firefighting support utilizing a 2,000 gallon water bucket.

Company B, 193rd Aviation, also stationed at Wheeler, is an aviation intermediate maintenance (AVIM) unit. The 266 personnel unit is capable of aircraft maintenance, component and supply support to divisional and non-divisional aviation units within the Corps area.

The Army Aviation Support Facility (AASF) at Wheeler Army Airfield and the Limited AASF in Hilo serve as bases for the Hawaii Army Guard aviation maintenance and training programs. Training programs include aircraft refresher and proficiency training in the following areas: terrain flight, unaided night, and night vision goggles. By special agreement with the active duty Army, the AVIM full-time augmentation has provided full-time supply and maintenance support for non-divisional aviation units in Hawaii. It is the first National Guard unit to provide such support.

The aviation units flew a total of 2,630 flying hours in 1996. These flight hours were used to accomplish mission support for the 25th Infantry Division

(Light), Hawaii Army National Guard, 45th Corps Support Group Forward, Army Reserve, and other military services.

Surface Maintenance

The State Surface Maintenance division has 74 full-time federal technicians employed at seven support facilities located throughout the state. An additional five soldiers on Active Guard/Reserve status provide automated repair parts supply support for maintenance programs throughout the HIARNG. These soldiers support 49 different units and 21 activities which include active Army and Army Reserve units located on the islands of Hawaii and Maui.

Employees of this division worked more than 160,000 hours performing scheduled services and installing more than \$1.2 million of repair parts. These efforts enabled all Hawaii Army Guard units to exceed the Department of the Army's material readiness goal of 90 percent.

This division assisted the 29th Infantry Brigade (Separate) as they

transitioned into one of the Army Guard's enhanced readiness brigades by receiving and maintaining more modern equipment such as M119A1, 105mm howitzers and the M16A2, 5.56mm rifles.

Employees of this division continued to keep abreast of force modernization programs by attending training here and on the mainland.

Hawaii Military Academy (Det. 2) - Ordnance Training Battalion

Jointly the Hawaii Military Academy (HMA) and the Regional Training Site Maintenance, which was reorganized to become the Ordnance Training Battalion (OTB), are vital components of the Total Army School System.

The HMA and OTB are extensions of the Training and Doctrine Command's (TRADOC) total force school system. The HMA was accredited by the Training and Doctrine Command and OTB was accredited by the U.S. Army Ordnance Center and School and the U.S. Quartermaster School. Graduates receive the appropriate proponent diplomas.

The HMA provided training for Army National Guard soldiers from Hawaii, Alaska, Oregon, Guam, and American Samoa. It also provided training for U.S. Army Reserve (USAR) soldiers, as well as active component soldiers from the Pacific area. The HMA conducted four major categories of training. These were Officer Candidate School (OCS), Noncommissioned Officers Education System (NCOES), Non-prior Service Training Program, and Military Occupational Specialty Qualification (MOSQ) courses.

In 1996, HMA's 15 officer candidates were commissioned as second lieutenants. Members of the graduating class completed their final two weeks of intensive training at Fort Lewis, Wash. The training was hosted by the Western Leadership Brigade, Washington Army National Guard. The programmed officer training was consolidated with 39 other academies from four different regions. The incoming OCS class conducted Phase

BLESSING THE NEW FACILITY--
Participants at the Regional Training Site-Maintenance (RTSM) facility's dedication ceremony hold hands in unity as the facility is blessed.

Photo by Sgt. 1st Class Wayne Iha

I OCS training at Camp San Luis Obispo, Calif. The training was hosted by the Western Combat Arms Brigade, California Army National Guard, and included 12 other states.

The training brigade conducted two basic noncommissioned officer (BNCOC) courses and one advanced noncommissioned officer course, graduating over 114 NCOs.

The training brigade also provided skill level one training to six indirect fire support specialists and 65 infantrymen in various MOSQs. Soldiers who attended the training included National Guard and USAR personnel from Hawaii, American Samoa, Alaska, and Oregon.

Battle-focused instructor training courses and small group instructor courses were also conducted at the academy for unit trainers.

The OTB provided maintenance and logistics training to Army, Marine, National Guard and Army Reserve soldiers. The OTB conducted MOSQ transition, sustainment, and skill qualification courses.

The automated logistical specialist transition and MOSQ course that the training site offers is beneficial to the National Guard during this time of unit reorganization. A soldier will be awarded the appropriate skill level identifier upon completion of this course.

The OTB is the training hub for

fielding and upgrading the unit level logistics system for all units of U.S. Army, Pacific (USARPAC). It will continue to train operators of the system and provide technical advice throughout the Pacific. The OTB fielded SCP-5, the newest upgrade to Unit Level Logistics System-Ground (ULLS-G), in December 1995.

The OTB conducted the 63B light wheel vehicle mechanic MOSQ course to assist the 29th SIB's readiness. The course will meet the needs of the inactive duty training soldiers by conducting the course during three weekend drills and an annual training to prevent civilian employment conflict. Construction of our permanent facility was completed in June 1996. The permanent facility allows OTB to offer a variety of MOSQ and NCOES Phase I courses. With the implementation of the Total Army School System, the training provided by OTB will produce better prepared soldiers of the reserve and advice components.

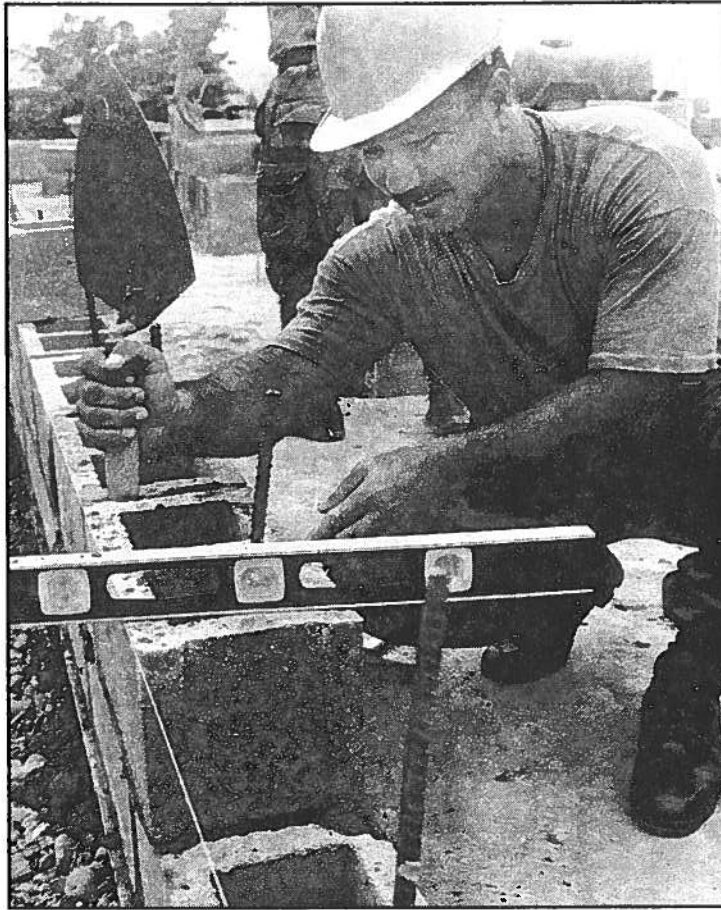

Highlights and Significant Events

During fiscal year 1996, the Hawaii Army Guard continued refining its Military Support to Civil Authorities (MSCA) plans by conducting joint emergency operations involving State Civil Defense (SCD) and the Hawaii Air Guard (HIANG).

Four members of the HIARNG's 117th

MAKING IT STRAIGHT AND LEVEL-- Honolulu resident and Hawaii National Guard member Sgt. Kenneth Kaaina levels a cinderblock wall by tapping it with a trowel. Kaaina and other soldiers with the 298th Engineer Detachment helped construct a 3,300 square-foot school building at Bella Vista, Panama, during annual training.

Public Affairs Team were deployed to the former Yugoslavia in support of Operation Joint Endeavor. The Hawaii Army National Guard soldiers are expected to return in early 1997. They are documenting the peacekeeping activities of the NATO Implementation Force (IFOR) in Croatia and Bosnia-Herzegovina. Deployed were Sgt. 1st. Class Stephen M.W.S. Lum, Sgt. Lance M. Kamisugi, Spc. Erik B. DeRyke, and Spc. Eraina V. Andes.

Hawaii Army National Guard conducted two major exercises to train the joint staff and to update operating procedures and policies. The Army Guard participated in exercise Makani Pahili (Hawaiian for hurricane) in May. The SCD conducts Makani Pahili annually with state, federal, and civilian agencies to improve response to natural disasters within the Pacific region. In December 1995, the HIARNG conducted a tsunami exercise to work on its internal and external plans.

Training

Hawaii Army National Guard units participated in a wide variety of training activities throughout the year. Troop Command units conducted year-round annual training to prepare units for deactivations and to provide support to the brigade during exercises and annual training. Brigade units trained at various times to capitalize on opportunities both in and out of the state.

The 298th Engineer Detachment traveled to Panama in April, as part of a humanitarian assistance/civil action exercise "Nuevos Horizontes (new horizons) '96 - Panama" to build foundations for two classroom buildings and a medical clinic.

A platoon from Company A, 2nd Battalion, 299th Infantry (Hanapepe, Kauai) was the first unit to have a chance to train at the premier light infantry training facility in the U.S., the Joint Readiness Training Center (JRTC) in May. The soldiers from Company A served as a security platoon in one of the brigades of the 25th Infantry Division (Light).

Company B, 2nd Battalion, 299th Infantry, conducted its Annual Training at Schofield Barracks.

The 1st Battalion, 487th Field Artillery trained at Yakima Training Center, Wash., in June and were visited by employees as part of the Employer Support of the Guard and Reserve (ESGR) Lift.

Elements of Company B, 193rd Aviation, the Aviation Intermediate Maintenance (AVIM) company along with the Hawaii Air National Guard, supported the Cobra Gold Exercise in Thailand during April and May.

COMING OF AGE-- Maj. Gen. Edward V. Richardson, the adjutant general and Airman Wendy Durupan untie a maile lei, Feb. 3, 1996 at the entrance of the new Vehicle Maintenance/Aerospace Ground Equipment Facility at Hickam Air Force Base, during dedication ceremonies. The building is now the home of the 154th Vehicle Maintenance & Operations Branch and the 154th Aerospace Ground Equipment Branch of the 154th Logistics Group. Hawaii Air National Guard photo

Hawaii Air National Guard

Mission

The Hawaii Air Guard has two missions. In performing its state mission, the HIANG provides organized, trained units to protect Hawaii's citizens and property, preserve peace and ensure public safety in response to natural or human-caused disasters. Its federal mission is to provide operationally ready combat units, combat support units and qualified personnel for active duty in the U.S. Air Force in time of war or national emergency.

Personnel

As of Sept. 30, 1996, the assigned strength of the HIANG was 248 officers and 2,138 enlisted, a total of 2,386 personnel. The total members make up 96.9 percent of the 2,461 positions authorized.

Organization

The HIANG is directed by the commander, Hawaii Air National Guard, and is comprised of the HIANG Headquarters, 154th Wing, 201st Combat Communications Group and 199th Weather Flight.

154th Wing

The 154th Wing is the largest of the HIANG organizations. It includes a headquarters, a fighter squadron, an air refueling squadron, an airlift squadron, an aircraft maintenance squadron, two aircraft control and warning squadrons, an air control squadron and 10 additional support units.

Responsibility for the state's air defense belongs primarily to the 154th Wing, headquartered at Hickam Air Force Base.

The 199th Fighter Squadron is equipped with F-15A/B Eagles to provide fighter-interceptor capability for the air defense system. The 199th is also tasked with providing the U.S. Air Force with air superiority fighters during war or other military contingencies. The 203rd Air Refueling Squadron is equipped with KC-135R Stratotankers to provide worldwide non-stop air refueling capability for almost every type of U.S. fixed wing aircraft. The 204th Airlift Squadron is equipped with C-130H2/H3 models to provide transport of National Guard and active duty troops for training, paratroop and tactical air drop capabilities, and deliver relief supplies following any natural disaster.

The Wing's two aircraft control and

warning squadrons operate radar sites at Kokee Air Force Station, Kauai, and Mount Kaala, Oahu. The two radars are linked to the Hawaii Regional Operations Control Center (HIROCC) at Wheeler Army Airfield, Oahu, and provide 24-hour surveillance of the entire Hawaiian island chain.

The "Objective Wing" Structure:

The 154th Wing is comprised of three groups: Operations, Logistics and Support.

The Logistics Group includes two newly created units, each servicing all three types of aircraft: the 154th Aircraft Generation Squadron and the 154th Logistics Support Flight. The Logistics Group is responsible for all HIANG aircraft maintenance and has the largest personnel force of all three groups.

The Operations Group includes the 199th Fighter Squadron, 203rd Air Refueling Squadron and the 204th Airlift Squadron. The F-15 community completed downsizing to 15 primary assigned aircraft while the 203rd's KC-135s robusted from four to eight, and attained mission ready status at the beginning of October 1995. The 204th Airlift Squadron's C-130s stood up with four authorized aircraft, and the conversion to modular control equipment was begun at the 154th Air Control Squadron on Kauai. Planning is underway for the 154th Wing and the 169th Aircraft Control & Warning Squadron (169

ACWS) to take on responsibilities of the 10th Air Defense Squadron in support of that mission.

The Support Group, which includes the 154th Engineering Squadron, worked hard to stay on top of the planning and construction of new facilities for the 154th Wing. The 154th Logistics Group's vehicle and aerospace ground equipment maintenance facility was dedicated in February. A new F-15 fuel cell/corrosion control facility and a new Consolidated Support Facility that will house the 154th Medical Squadron, Services Flight, Accounting and Finance and other elements of the wing headquarters will be dedicated in 1997.

201st Combat Communications Group

The primary mission of the 201st Combat Communications Group (CCG) is to provide command and control communications and air traffic control services for the USAF combat air forces and support emergency USAF requirements for the air traffic control and communications facilities, as well as to provide tactical communications for the State of Hawaii, Department of Defense in response to emergencies originating from either human or natural causes. When activated under call-up authorities, 201st CCG units will be able to activate its personnel within 24 hours; and, be ready to deploy within 72 hours in

201st Combat Communications Group for Operation Joint Endeavor	Taszar Air Base, Hungary	Various dates

MAKING A CONNECTION- Senior Airman Derick Higa and Staff Sgt. Roy Aipa, of the 292nd Combat Communications Squadron (CBCS), and Senior Airmen Dennis Tejero and Keala Sing, of the 297th Air Traffic Control Flight (ATCF), work together to provide communication services between the Lanai Airport and Kanepu'u, during an exercise Feb. 4-8, 1996.

Hawaii Air National Guard photo

accordance with USAF war and Mobilization Plans. The 201st CCG units are able to provide command and control communications and air traffic control services for 30 days with its own readiness spares packages.

The 201st Combat Communications Group is composed of a group headquarters and four assigned units located on the Hawaiian Islands of Oahu, Maui and Hawaii, and one unit in Alaska. The Headquarters is co-located with the 293rd Combat Communications Squadron at Hickam Air Force Base. The 292nd Combat Communications Squadron is located at Kahului, Maui; the 297th Air Traffic Control Flight is located at Barbers Point Naval Air Station, Oahu; and, the 206th Combat Communications Flight is located at Elmendorf Air Force Base in Anchorage, Alaska. The 298th Air Traffic Control Flight, at the Navy's Pacific Missile Range Facility, Barking Sands, Kauai, was deactivated on April 1, 1996.

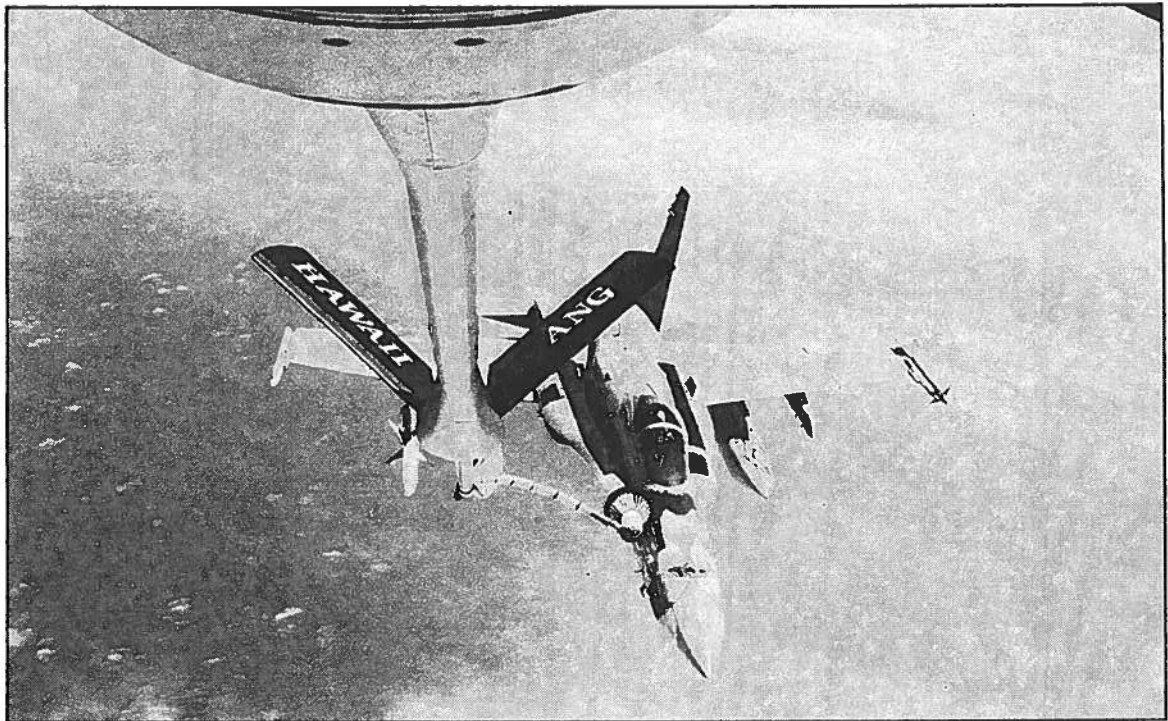

199th Weather Flight

The 199th Weather Flight (WF) provides meteorological support primarily to the Hawaii Army National Guard's

29th Infantry Brigade (Separate) and secondarily to active and reserve components of the Army and Air Force. When deployed, services include continuous 24-hour staff weather services, forecasting, observation and climatological support to the brigade's tactical operations center and a brigade airfield, drop zone, or helipad. Located at Wheeler Army Airfield, the unit provides weather information to the joint, worldwide meteorological network operated by the Air Force's Air Weather Service, the National Weather Service, and the World Meteorological Organization.

- During its deployment to Hilo, Pohakuloa Training Area, and Upolu Point in July, the 199th Weather Flight focused on improving its tactical and technical weather forecasting skills. At the same time, the 199th Weather Flight was able to pass along important weather information between the two islands via its high frequency communication system. An unexpected benefit of this deployment was that the 199th WF learned a lot about the finer details of maintaining and operating high frequency communication equipment from the 291st Combat Communications Squadron while in Hilo.

AIR TO AIR-- A boom drogue from a KC-135 belonging to the 203rd Air Refueling Squadron, refuels a U.S. Navy F/A-18 Hornet from the aircraft carrier U.S.S. Independence, over the Pacific Ocean, east of Taiwan, March 19, 1996.
Hawaii Air National Guard photo

- Disaster assistance and training in the Hawaii Air Guard emphasize the importance of the growing mission of assisting during natural disasters.

Weather information via the internet

The 199th WF continues to keep the state adjutant general informed on tropical disturbances, which have the potential of developing into hurricanes and other weather situations which could have a detrimental effect on the state of Hawaii. The 199th Weather Flight also assists the state adjutant general with retrieving important weather information via the internet.

Other HIANG training missions

Throughout FY 1996, the Hawaii Air National Guard trained for its vital Federal and State missions, and supported active duty military units at home and abroad. The 199th Fighter Squadron (FS) was nominated for the Hughes Achievement Award, which is annually awarded to the unit that has demonstrated superior air superiority and air defense. The 199th FS also contributed to the testing and evaluation of the night vision devices, and testing of the

SATCOM, a real-time audio and video communications systems for the F-15s.

- Deployments and exercises included missions in Asia, the Middle East, Europe, Alaska, and the U.S. mainland.

In July and August 1995, the 201st CCG responded to a real world humanitarian mission, providing tactical communications in support Joint Task Force Operation Prompt Return on Wake Island. Operation Prompt Return was conducted by the U.S. State Department to repatriate 156 Chinese nationals who attempted to illegally enter the United States aboard a fishing vessel.

In September 1995, the 154th Security Police Squadron deployed to Osan Air Base, Korea, to provide support to the 51st Fighter Wing. Less than a week later, elements of the squadron deployed to the Philippines for Exercise Balikatan '95. Also, in October 1995, three personnel from the 201st CCG departed to Osan Air Base, Republic of Korea, on a 45-day tour of duty in support of Foal Eagle '95.

From Oct. 21 through Dec. 4, 1995, 116 members of the 154th Maintenance Squadron, Aircraft Generation Squadron, and 199th Fighter Squadron deployed with F-15 aircraft to Howard Air

Base, Panama, for Operation Cornet Nighthawk. The mission was to intercept and identify unknown aircraft suspected of attempting to enter the United States with illegal drugs. Information gathered during intercept missions was forwarded to U.S. Customs officials.

In October 1995, the 203rd Air Fueling Squadron deployed with KC-135s to Pisa, Italy, to support Operation Deny Flight over Bosnia. The 203rd's tankers refueled NATO aircraft patrolling the no-fly zone of Bosnia.

In January 1996, the 199th Fighter Squadron participated in Sentry Aloha exercises conducting air defense and offensive counter air exercises with F-16s from the Virginia Air Guard, B-1s from the Kansas Air Guard, and active duty B-52s.

From Jan. 23 to mid February, one NCO from the 201st CCG deployed to Cope Tiger 96 to provide Land Mobile Radios (LMRs) support to the USAF commander at Korat, Thailand.

In February 1996, the 203rd Air Fueling Squadron teamed up with the active duty to aptly demonstrate the U.S. Air Force mission: "Global Reach, Global Power." Two KC-135s accomplished a mid-ocean refueling of two B-2 "stealth" bombers from the 508th Bomb Wing, Whiteman AFB, Mo, during the bombers' non-stop flight around the world. The following month, in March, a KC-135 from the 203rd ARS refueled U.S. Navy aircraft from the aircraft carrier U.S.S. Independence in the Taiwan Straits. The Navy aircraft was monitoring Chinese live-fire exercises near Taiwan.

Also, in March 1996, more than 100 men and women from the 199th Fighter Squadron and 154th maintenance and support personnel deployed to Incirlik Air Base, Turkey, for Provide Comfort II to help enforce the northern no-fly zone of Iraq. This was the second time that the Hawaii Air National Guard had deployed F-15s, pilots and maintenance crews to Turkey for Operation Provide Comfort II.

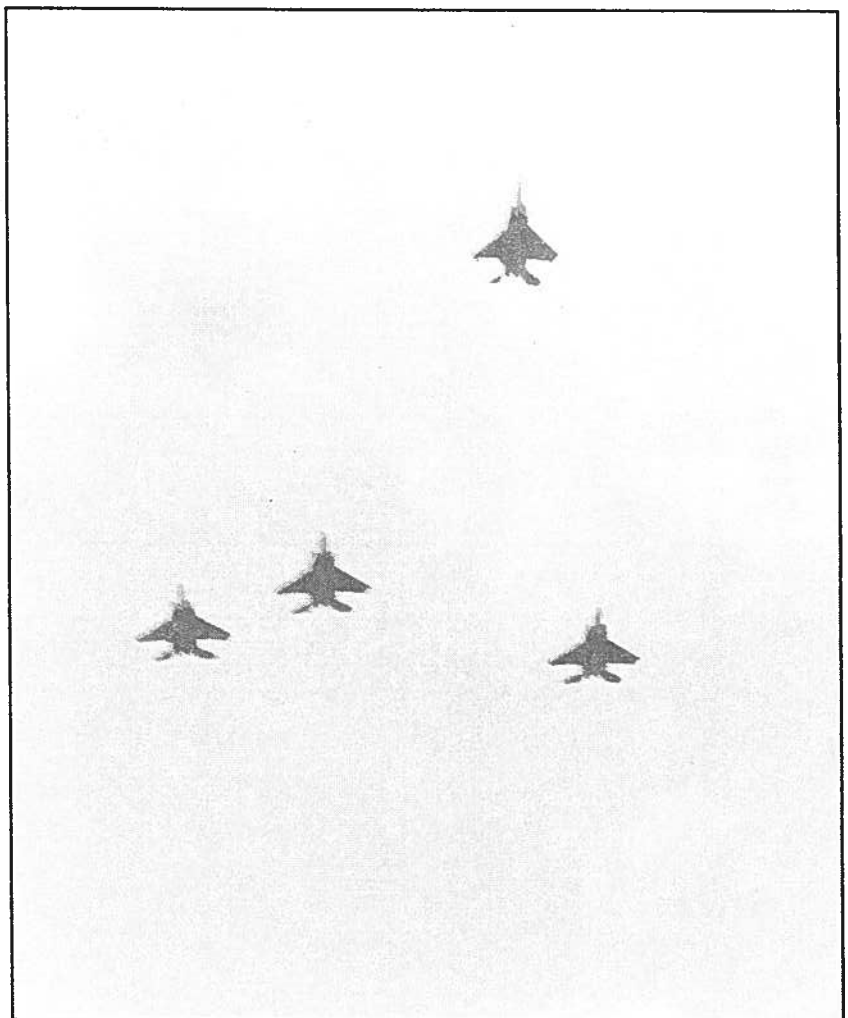

In April, the 291st CBCS was designated as the lead 201st CCG unit for Cobra Gold 96, a Joint Forces Exercise in the Kingdom of Thailand. The 204th Airlift Squadron provided tactical airlift support for Cobra Gold.

Also that month, members from the 169th Aircraft Control and Warning Squadron (169 ACWS) participated in the first ever "Top Scope '96," a multi-regional "Top Gun" air defense competition.

In June 1996, the 154th Civil Engineer Squadron and the 154th Services Flight were deployed to Kadena Air Base, Japan, for Silver Flag exercises.

From May 20 to June 28, 1996, members of the 169th ACWS, 199 FS, 203 ARS and 201st CCG participated in "RIMPAC '96" exercises with other U.S. military and multinational forces.

Training for disaster response:

In July 1995, HQ 201 CCG personnel participated in a earthquake response exercise, "Ola'i," conducted by the Hawaii Army National Guard.

In February 1996, 201st CCG units participated in Exercise Silver Sword on the islands of Maui, Molokai, and Lanai with communication reach back to Oahu. This exercise was to test a scenario in which all communications would be down immediately following a devastating hurricane or other natural disaster. Communications circuits were tested to link each island within Maui County to the State Civil Defense Emergency Operations Center located in Diamond Head Crater.

On March 3, HQ 201st CCG Deputy Commander and Director of Operations participated in the Hawaii National Guard's Military Support to Civil Authorities (MSCA) Response '96 Disaster Exercise for the HING staff. For this exercise, simulated hurricane "Kehau" devastated the island of Oahu, requiring actions by the HING staff in emergency response to a wide variety of taskings. Main objectives were to prepare the HING staff for the statewide exercise (Makani Pahili) in May 1996 and to test the HING plans and emergency operating procedures.

Community Support:

In September 1995, the HIANG provided manpower and equipment support for the 50th Anniversary Commemorating the end of World War II attended by the President, Department of Defense service secretaries, military service chiefs, Chief of the National Guard Bureau, adjutants general for several states, as well as numerous other dignitaries.

HIANG F-15, KC-135, and C-130 aircraft flew aerial salutes at the Parade of Ships off Waikiki and at the Veterans Parade in Waikiki (the F-15s led the entire 60-aircraft contingent). In addition, HIANG F-15s flew in an aerial salute at Wheeler Army Airfield, performed a Missing Man flyover of the National Memorial Cemetery of the Pacific (Punchbowl) during the ceremonial unveiling of the National Guard Association of the U.S. plaque at Punchbowl, flew a Missing Man flyover of Punchbowl during a commemorative service attended by President Clinton and other dignitaries and flew a Missing Man fly-by for the dedication of the Missing Man Memorial at Hickam Air Force Base.

The HIANG supported community and international relief efforts in FY 1996 including Mission Aloha II to the Philippines.

During November 1995, HIANG personnel supported the humanitarian effort initiated by the State of Hawaii, with over 71.5 tons of food and clothing which were collected, processed, and shipped via military and commercial aircrafts to the Philippines to assist victims of super Typhoon Angela.

To support the local community, Oahu-based units collected more than 300 pounds of food to support the 1996 State Employees's food drive.

MAKANI PAHILI-A mock Disaster Assistance Center was set up at the Hawaii Army National Guard's armory at Diamond Head and 22nd Avenue for a Civil Defense preparedness drill, May 3-9.
State Civil Defense photo

State Civil Defense

Mission

The mission of Hawaii State Civil Defense (SCD) is to coordinate, integrate and focus mitigation, preparedness, response and recovery phases of emergency management for the State of Hawaii. This responsibility represents a commitment to the people of Hawaii to minimize disaster risks and help protect life and property.

Available resources must combat a wide range of natural, environmental and technological hazards, including domestic and global hostilities. Hazard management is accomplished via four phases:

Mitigation. Measures which reduce or eliminate the hazardous effects or conditions of a disaster.

Preparedness. Plans and procedures developed for disaster response and recovery, staff training, and community education.

Response. Actions taken to alert and inform the public, and coordination and application of agency resources for crisis response.

Recovery. Short- and long-term integrated efforts taken to aid in restoring social and economic structure following a disaster.

Personnel

SCD currently has a staff of 43 full-time and contract employees. The number has been increased to support long-term recovery operations for Hurricane Iniki. The special section is currently working on project monitoring and audits, as well as closing out completed repair work on public and private non-profit facilities. During emergencies, staffing is also increased by government liaison and volunteer agency support.

The adjutant general serves as the director of civil defense. The vice director oversees day-to-day operations and assumes the responsibilities of the director when the director is out of state.

Organization

The SCD is organized into three branches: Training, Education and Information; Plans and Operations Branch; and Telecommunications, all supported by an administrative section. A fourth Recovery Branch is formed when needed to manage large scale recovery operations in the wake of a major disaster.

The civil defense system is authorized by Chapters 127 and 128 of the Hawaii Revised Statutes (HRS). This legal

framework provides the structure for an integrated comprehensive system. SCD also serves as the office of record for all major disasters impacting the State of Hawaii.

Under the provisions of Chapter 128, HRS, the director of Civil Defense appoints a deputy director in each county. County mayors typically take on this appointment and are directly responsible for public safety and providing support to county Civil Defense agencies. The mayor normally hires an administrator to run his or her agency. Each County Emergency Operating Center has a small full-time staff which is partially supported by federal funds. Agency plans are approved by the mayors, county councils, and the director of civil defense.

County Emergency Operations Plans are coordinated with the Federal Emergency Management Agency (FEMA) and other federal agencies supporting the state Civil Defense system. All state departments have a designated civil defense coordinator and develop in-house plans which implement the provisions of the state civil defense plans. The plans are approved by department directors and the director of civil defense.

The DOD maintains the State Disaster Contingency Fund authorized under Chapter 127-11, HRS. The fund provides \$1 million per state disaster and an

additional \$1 million match required by the federal government if a presidential disaster is declared. This special fund helps pay for repairs to public facilities and infrastructure.

In coordination with the Attorney General, SCD drafts all Disaster or Emergency Proclamations for the Governor's approval and signature. This document is the formal step required to access state or federal disaster aid. If an emergency depletes county resources, the county may seek assistance through SCD channels. If disaster impact escalates beyond state resources, the state turns to FEMA for federal assistance.

With county support, the SCD maintains a statewide communications and warning system made up of outdoor sirens and the Emergency Alert System (EAS). Operated over local radio, television and cable outlets, the EAS system is voluntarily supported by the broadcast industry. Communications and computer systems represent the latest in technology to tie in response agencies around the state. Currently in place are satellite and microwave links, radio and telephone hotlines, and a full array of hardware and software. The high tech equipment is backed up by a single sideband radio equipment installed in all counties to guarantee fail-safe communications.

HIGH TECH--
The Pacific Disaster Center is located in the Maui High Technology Park, Kihei, Maui. It is less than a half hour drive from the Kahului Airport.

Councils, Boards, and Special Groups

The seven-member State Civil Defense Advisory Board is appointed by the Governor and meets quarterly to discuss programs and projects conducted by SCD. Serving on the Advisory Council for 1996 are Alejandro Lomosad, Kauai; Gabriel "Gabe" Kilakalua Jr., Judith A. Young, Randall M. Izuo and Linda D. Chinn, Oahu; Walter L. Ornellas, Maui; and Albert "Benny" Rodero, Hawaii.

Hawaii State Earthquake Advisory Board

Formed in August 1990, The Hawaii State Earthquake Advisory Board meets quarterly to identify priorities for earthquake mitigation and preparedness. The board, drawn up of individuals from the scientific, engineering, academic, and emergency management communities, works closely with Hawaii's earthquake program.

Hawaii Hurricane Advisory Board

Made up of representatives from the National Weather Service, University of Hawaii Structural Engineering, and Civil Defense, the Hawaii Hurricane Advisory Board held its first meeting in March 1994. The board has been assembled to take an in-depth look at mitigation strategies, capitalizing on recent events and history in the North Central Pacific.

Pacific Caucus

SCD provides the chair, hosts, and coordinates the activities of the Pacific Caucus of Emergency Managers. In addition to Hawaii, members include representatives from Alaska, Guam, American Samoa, Republic of the Northern Mariana Islands, Federated States of Micronesia, Republic of the Marshall Islands, and the Republic of Palau.

Formed in Honolulu in 1988, the Pacific Caucus gives Hawaii's Pacific island neighbors a voice and a presence in the national emergency management arena. The multinational group holds annual meetings in Honolulu and is formally recognized as a fully vested member of the National Emergency Management Association, a body representing all directors.

Highlights and Significant Events Pacific Disaster Center dedicated

Feb. 21, 1996 marked a milestone for the Pacific Disaster Center, when special dedication ceremonies opened

the doors of the Maui Application Center. The site is housed at the Maui Research and High Technology Center at Kihei and taps directly into the Maui supercomputing facility. The supercomputer was originally installed for use in the Strategic Defense Initiative -- "Star Wars"-- and has since been harnessed for peaceful purposes. Among users is the Pacific Disaster Center, which has been formed to consolidate high technology resources and communications for emergency management applications in Hawaii and the Pacific Rim.

Coinciding with the February dedication was a three-day federal users workshop to assess agency information needs and guide development of products tailored to the emergency management community. Products will then become part of a pacific-wide network offering an array of tools to better respond to disasters from any source.

For nearly a year, the main focus of Pacific Disaster Center operations has been to install and upgrade hardware and communications to link up key federal, state and county agencies involved in the Hawaii civil defense system. A main cornerstone is the Pacific Regional Emergency Management Information System (PREMIS), which serves as the infrastructure for information exchange in Hawaii and the Pacific. This network hub, along with other related resources, is located within the State Civil Defense Emergency Operating Center.

The Rev. Bill Pifer of Keolahou Church, Maalaea, conducts a traditional blessing for the opening of the Pacific Disaster Center. Among the dignitaries attending the ceremony are (L to R) Maj. Gen. Edward V. Richardson, U.S. Rep. Patsy Mink, U.S. Sen. Daniel Inouye, Maui Mayor Linda Crockett-Lingle, and Roy Price, State Civil Defense vice-director.

MASS CASUALTY DRILL---The Hospital Association of Hawaii held its annual accreditation exercise by staging a mass casualty drill in conjunction with Makani Pahili '96. Here a woman pretending to be pregnant gets assistance from active duty medics participating in the drill.

Photo by Deborah M.S. Murray

Another central project underway is the installation of satellite ground stations in Pacific Insular States. The PEACESAT GOES satellite will bring direct tie-in to the Pacific Disaster Center, providing important new disaster management services to our Pacific neighbors.

The Pacific Disaster Center has been strongly supported by Senator Daniel K. Inouye, author of congressional funding for the project. The Center is envisioned as a prototype for similar disaster management facilities in the county, and is being closely watched by organizations such as the United Nations for international uses.

Hawaii's newest island draws close scrutiny by seismologists

A swarm of small earthquakes has heralded the growing pains of Lo 'ihi, the Big Island's newest volcano. The under-

sea activity is taking place at nearly a mile below sea level, located approximately twenty miles off Hawaii's southeast coastline. As Lo'ihl begins its gradual climb to the surface, University of Hawaii scientists have made the descent in research submarines to observe the volcano's activity. These observations are helping to provide a more precise picture of the earlier formation of islands in the Hawaiian Chain, which hundreds of thousands of years ago began their rise to the surface of the Pacific.

Seismologists, meanwhile, are carefully monitoring Lo'ihl's quake activity. The recent recorded swarms have raised questions about the possibility of stronger tremors.

Iniki recovery ongoing

The special recovery staff assembled in early 1993 to oversee public repair projects continues the job of managing current repair work, as well as project closeouts. The staff has worked on over 2,200 repair projects, the result of an estimated \$150 million in damages to government property and private non-profit agencies. Project monitoring, inspection, and audits will most likely continue into the year 2000. Hurricane Iniki was Hawaii's worst disaster, with damages topping \$2.6 billion. This Hawaiian storm is listed with Hurricanes Andrew, Hugo, Alicia, and Camille as the worst hurricanes to strike the United States in the twentieth century.

Training and exercises

Training and exercises are an integral part in maintaining the readiness of Hawaii's emergency management system. During 1996, 376 participants attended sixteen State Civil Defense-sponsored courses. In addition to professional development courses, State Civil Defense also administers Hazardous Materials Training (HAZMAT) for first responders.

Coupled with training, exercises also play a major role in readiness and response skills. The annual full-scale hurricane exercise Makani Pahili '96, drew hundreds of agencies and thousands of players from around the state. Held over May 3 - 9, 1996, the event covered nearly every phase involved in a real hurricane, from tracking the storm to dealing with its aftermath.

What made this year's exercise unique was the use of special segments, which allowed for the setup of a Disaster Field Office and Disaster Assistance Center. These facilities are normally engaged when a major disaster occurs and the Governor calls on the President of the United States for federal assistance. The exercise segments gave federal, state and county agencies a firsthand opportunity to practice interaction called for under the Federal Response Plan. Under the umbrella of FEMA, the plan aligns dozens of federal agencies in emergency support functions to work in parallel with state and local

agencies. Besides government involvement, local banks and insurance companies, as well as volunteer agencies were among participants in the special exercise segments.

Again in 1996, the Hospital Association of Hawaii held its annual accreditation exercise by staging a mass casualty drill in conjunction with Makani Pahili '96. Some thirteen Oahu hospital emergency rooms treated "casualties" transported by helicopter and ambulance from four field staging areas around the island.

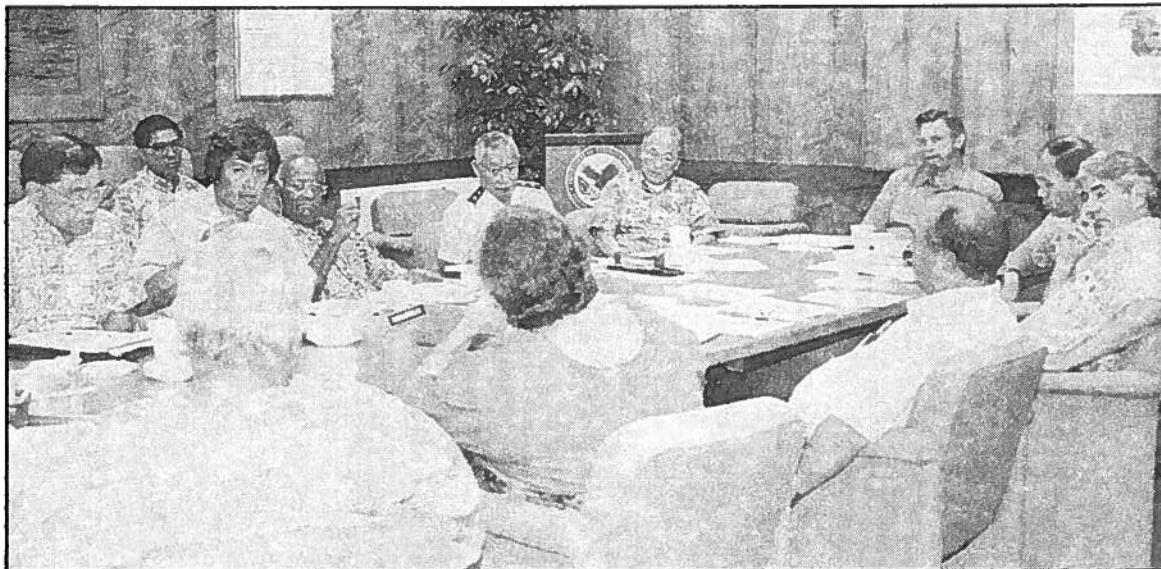

Makani Pahili '96 received high marks from evaluators, and participants alike, for its innovative treatment of the exercise scenario. In addition to the yearly major event, State Civil Defense also conducts small scale exercises which focus on specific crisis management aspects. The practical application of lessons learned through training and exercises becomes immediately apparent when agencies are called upon to meet the challenges of a local emergency or major disaster.

Local insurance companies were a vital part of the Makani Pahili '96 exercises. During this phase of the exercise, a Disaster Assistance Center was set up to assist homeowners with low interest loans for repairs to homes and businesses.

State Civil Defense photo

The Advisory Board on Veterans Services meets the first Friday of every month to discuss issues that pertain to the state's 120,000 veterans. Here the board meets at the Department of Veterans Affairs (VA) building.
Photo by Deborah M.S. Murray

Office of Veterans Services

Mission

The Office of Veterans Services (OVS) is the principal state office responsible for the development and management of policies and programs related to veterans, their dependents, and/or survivors.

Personnel

The OVS is authorized 22 full-time state employees.

Organization

The OVS consists of the director and administrative and office services sections, the veterans services branch and the Hawaii State Veterans Cemetery branch. The veterans services branch, under supervision of the veterans services coordinator, consists of veterans services counselors and clerk typists on Oahu, Hawaii, Kauai and Maui who are responsible for veterans services in their respective county. (The Maui counselor also provides services to veterans on the islands of Molokai and Lanai.) In the Oahu section, the counselor also coordinates statewide services to the Filipino-American World War II veteran community. The Hawaii State Veterans Cemetery operations assistant, secretary, clerk typist, three general laborers and one tractor operator, are responsible for the operation and management of the veterans cemetery located in Kaneohe on the Windward side of Oahu.

Highlights and Significant Events

The fiscal year was notable for events commemorating veterans. On July 17, 1995, ground was broken for the Center for the Aging, a 60-bed nursing home care unit, at the Spark M. Matsunaga VA Medical Center. Sept. 1-4, 1995, marked the 50th Anniversary of the end of World War II commemorations with events held throughout the islands. The Department of Defense was instrumental in developing the program for "Hawaii Remembers" the State of Hawaii's contribution to the celebration commemorating the end of WW II. The Office of Veterans Services (OVS) played a major role in coordinating and staging veterans for participation in various events commemorating the 50th Anniversary of V-J Day.

Construction was started on the West Hawaii Veterans Cemetery in 1995. In December, a tree planting ceremony was held at the Kauai Veterans Center to honor members of the 442nd. A groundbreaking ceremony for the Lanai Veterans Cemetery was held May 17, 1996.

Recruits/Volunteers

Since May 11, 1995, volunteers from veterans organizations have assumed responsibility for weekly cleaning and

SALUTING THE FLAG--Advisory Board on Veterans Services member Alfred Los Banos is shown here with President Bill Clinton during events celebrating the 50th Anniversary of VJ Day.

117th Public Affairs Team photo

polishing of the Korean and Vietnam memorials. During the year, organizations supplied approximately 500 hours of support.

Burial assistance

A burial assistance program for Filipino-American World War II veterans provided 13 grants totaling \$25,000.00 for the funeral, burial or transportation of the remains of eligible Filipino-American veterans who did not qualify for regular veteran burial benefits.

The State Cemetery Grants Program (Department of Veterans Affairs) provided an additional \$127,049 to cover change orders and contingencies for Phase I improvements to the veterans cemeteries in Hilo and West Hawaii on the islands of Kauai, Maui, Lanai and Molokai. The amount of \$1,736,109 was granted to support the Phase II developments for veteran cemeteries in Hilo, Kauai, Maui, and Molokai.

Personnel changes

Personnel actions during the fiscal year saw the reassignment of Robert K.

Viduya, OVS director 1995-1996; the appointment of Walter M. Ozawa as the OVS director on Feb. 1, 1996; the elimination of a vacant general laborer II position and recruitment for a veterans services counselor IV, a civil service position created from the Veterans Special Assistant exempt position.

The OVS continued to lobby, through Hawaii's congressional delegation and veterans organizations, for the construction of the Spark Matsunaga Medical Center, which will include the VA Regional Offices.

The OVS and its coordinator and counselors continued as ad hoc members of their respective county's veterans council. They attended WW II Commemoration events; coordinated Veterans and Memorial Day activities; addressed veteran, senior, homeless and health organization meetings; cooperated with architects and engineers on neighbor island veteran cemetery upgrade and development projects; testified before the Legislature for funds for neighbor island veterans cemeteries; participated with the Department of Veterans Affairs (VA) selection committee on, relocation of the

Hilo Primary Care Clinic and the Hilo Vet Center; offered assistance to Hamakua coast veterans left unemployed by the demise of the sugar industry; organized transportation for volunteer honor guards for military burials; supported the statewide inspection of veterans memorials and cemeteries; offered technical assistance to county veterans organizations and councils; supplied information and display materials on veterans services at public exhibitions and fairs; provided outreach services to homebound, nursing home, incarcerated and rural veterans; and participated in the Transition Assistance Program, which provides information to separating active service members.

Neighbor island counselors continued to coordinate the children's lei-making program with the schools to obtain Memorial Day leis for graves at the National Memorial Cemetery of the Pacific (Punchbowl), the Hawaii State Veterans Cemetery, and neighbor island cemeteries.

In response to the state's fiscal situa-

tion, more efforts were made to economize and to utilize veteran volunteers.

The prison inmate workline continues to help to maintain the Hawaii State Veterans Cemetery in Kaneohe. The Department of Veterans Affairs (VA) Vocational Rehabilitation Program continues to support a work study position for assisting with the work of the Veterans Services Branch.

The OVS cooperated with the Hawaii WW II Commemoration Committee to organize the veterans parade and other events planned for the end of WW II commemoration and VJ Day remembrance.

Boards/Commissions

The Advisory Board on Veterans Services advises the director on veterans' issues and legislative proposals and program operations. Its primary focus for 1996 was the support of the Spark M. Matsunaga Veterans Affairs Medical Center; to work with state agencies to establish long-term care facilities on the neighbor islands; to instill more public

awareness of the Advisory Board and to make a concerted effort to reach out to women veterans.

Members of the board are: Shirley R. Farineau (Oahu), chair; Louis Kaoiwi (Hawaii); Edward Kawamura (Kauai); Walter J. Hayes/Rogelio Evangelista (Maui); and Alfred Los Banos, Judith H. Worobe and Toy Grice representing Oahu.

Administrative Services Office

Mission

The Administrative Services Office (ASO) provides military and state administrative support to the Office of the Adjutant General. It coordinates and controls all planning, programming, budgeting and execution of departmental programs as directed by the adjutant general.

Personnel

The ASO is authorized 17 full-time state employees.

Organization

The ASO is comprised of three primary staff elements. These are the executive support, personnel and financial management services sections.

Administrative Support Office

The ASO provides centralized office services and communications management, to include the monitoring, review, distribution and filing of communications received from federal, state and local governments and the civilian community. The ASO is also responsible for maintaining close liaison with Hawaii's congressional delegation and legislature, and for administering all legislation affecting departmental programs. The office prepares correspondence and testimony concerning various legislative proposals. The military component of the ASO provides executive support services to the adjutant general. It also coordinates the activities of the adjutant general's military staff, composed of members of the Hawaii National Guard (HING).

Personnel Management Services

The personnel management services staff administers the state employee personnel program which includes classification, compensation, recruitment and placement, personnel transactions and records, labor relations, employee relations, training, workers' compensation and occupational safety and health.

Financial Management Services

The state financial management services staff administers and controls state general fund appropriations, state administered federal funds and matching fund grants under the Federal Emergency Management Assistance program. The staff also provides centralized control and accounting of all state property assigned or issued to the department.

Highlights and Significant Events

There were 165.5 permanent state positions assigned and authorized during the year, 155.5 of which were filled as of June 30, 1996. Additionally, 110.5 temporary positions were authorized and 79.5 were filled at the end of the fiscal year.

During the fiscal year, the following types and number of personnel actions were taken:

Type of Action	Number Processed
Appointments	26
Separations	33
Reassignments	5
Promotions	6
Retirements	3
Reallocations	3
Deaths	1
Miscellaneous Actions	785

Seven sustained superior performance awards were submitted and approved during the fiscal year. The average monetary award amounted to \$285.

The 1996 recipient of the Adjutant General's Award for Distinguished State Service was James Y. Iha, director of the Youth Challenge Program. The department's nominee for the State Manager of the Year Award was Lt. Col. Edwin R. Miyahira, Military Staff Officer, Operations and Training, in the Air National Guard Division.

During the fiscal year, there were 17 reportable cases of work-related injuries involving state employees. There was a total of 253 lost workdays or an average of 14.8 workdays per injury. In addition, there were four workers' compensation injuries involving drill status National Guard personnel.

The ASO, through its fiscal staff, adminis-

tered and controlled \$8,131,967 in State general fund appropriations and \$10,790,570 in Federal fund appropriated receipts.

The net general fund appropriation was comprised of \$5,616,969 from the DEF 110 (departmental operating program), \$1,098,103 from DEF 112 (services to veterans' programs), and \$1,000,000 for the major disasters fund.

Total expenditures and encumbrances in both programs DEF 110 and 112 (sans \$1,000,000 for the major disaster fund), amounted to \$6,682,484 for an expenditure rate of 99.51 percent, leaving a general fund lapsing balance of \$32,588 in addition to the \$1,000,000 for the major disaster fund. The general operating fund lapsed balance was mainly due to adjustments in the amounts paid on final invoices and the fact that there was no major disaster in FY 96. The federal reversion balance was mainly due to adjustments in the amounts paid on final invoices and the fact that there was no major disaster in FY 96. Federal fund expenditures and encumbrances amounted to \$8,315,756, leaving a reversion balance of \$2,562,378. The federal reversion balance was due mainly to a change in location in the Hawaii National Guard Youth Challenge Program (HING YCP) which resulted in lowering the initial enrollment of participants and not using site renovation costs. **Table 5** in the appendix depicts the distribution of general fund allocations, appropriated receipts and expenditures by programs, organizations and cost elements.

Additionally, the fiscal staff administered three federal fund holding and disbursing accounts. **Table 6** in the appendix reflects the status of these accounts as of June 30, 1996.

The department's cash receipts for the year amounted to \$11,359,252. Of this amount, \$33,384 was credited to the State general fund, \$70,488 to the general fund operating account, \$11,255,380 to special (Federal) fund operating accounts. The sources and fund accounts

to which they were credited are depicted in **Table 7** of the appendix.

In administering the state finances for the year, the fiscal staff processed 4,493 purchase orders, 1,041 summary warrant vouchers, 6 payroll vouchers, 62 bills for collection, 130 Federal fund claims invoices, 263 treasury deposit slips, and 759 petty cash checks.

The department administered and accounted for state program funds through an in-house developed accounting system and statewide Financial Accounting and Management Information System (FAMIS). Information is transmitted to the Department of Accounting and General Services via the department's direct on-line terminals.

Federal funds from the Federal Emergency Management Agency's (FEMA) Public Assistance Program (Public Law 93-288) for Hurricane Iniki and Kilauea lava flow relief efforts amounting to \$1,343,631 were received for the department's Damage Survey Reports and for administration of the program. In addition, \$11,239,633 for Hurricane Iniki was received from FEMA and disbursed to other State departments, the counties and nonprofit organizations for public assistance.

Federal funds for Civil Defense program activities amounting to \$761,212 was received as 50-50 matching fund grants under the FEMA Program (Public Law 85-606) and the Civil Defense Maintenance and Service Program (Public Law 920); as 100 percent federally-funded contract grants for State and local assistance, other assistance, hurricane preparedness, Emergency Management Training, and hazardous material training; and as 50 percent funded contract grant for disaster improvement and earthquake preparedness.

Federal funds for the HING amounting to \$7,874,869 were received under the Master Cooperative Agreement and Youth Challenge Program negotiated between the National Guard Bureau and the State Department of Defense. These agreements provided for reimbursement

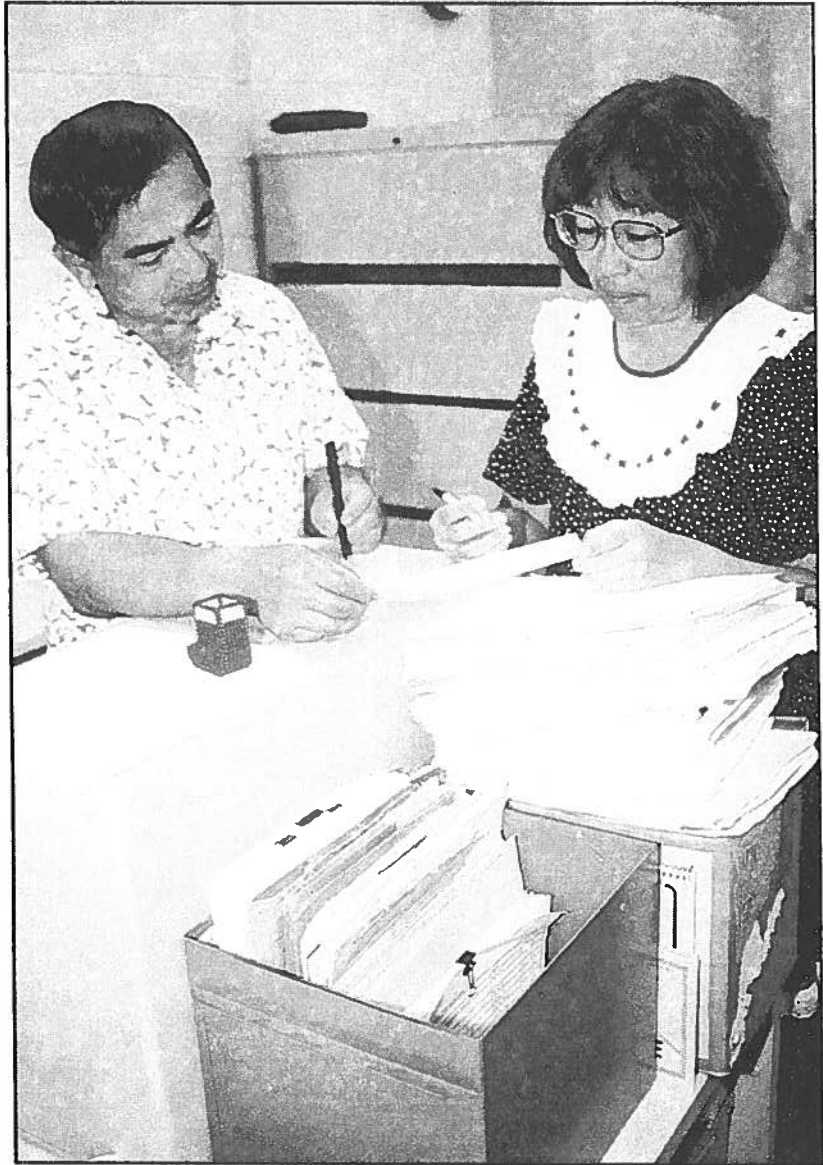

of the authorized costs to operate and maintain building and grounds occupied for training of the Hawaii National Guard and to conduct remedial and job training of the Hawaii National Guard and to conduct remedial and job training for youth considered to be "at risk." Funds received under these agreements are deposited into the state treasury as appropriated receipts or as refunds of fringe benefit payments advanced by other state agencies.

During the year, the department removed 534 items of surplus and unserviceable property valued at \$322,759. However, the completion of the Hawaii State Veterans' Cemetery in Kaneohe added land and building valued at \$9,771,340 to the department's inventory.

The fiscal staff also administered the short-term use and rental of departmental facilities by coordinating and processing 25 applications for use of armories and grounds located throughout the five major islands. The rental fees and utility reimbursements collected amounted to \$3,816. The department's property inventory as of June 30, 1996, is provided in the figure to the left.

Funds received under these contracts

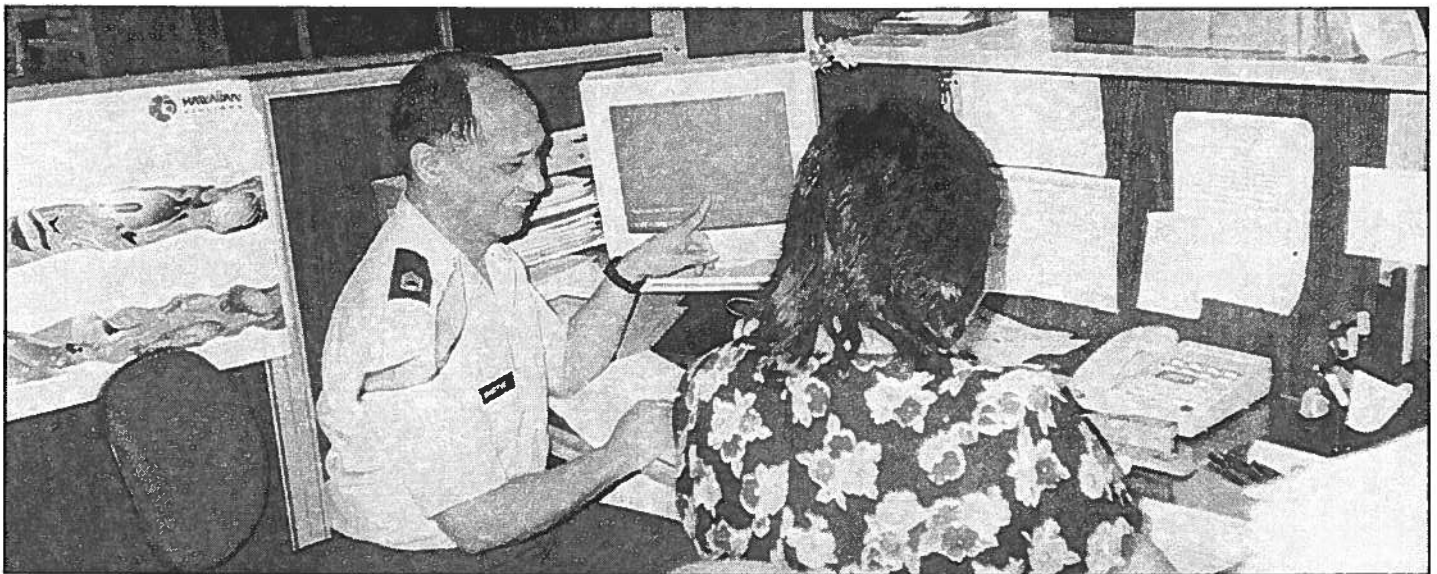

Property Classification	Unit/Acre	Acquisition Cost
Land and Interest in Land . . .	22	\$9,862,507
Buildings and Structures . . .	115	21,904,673
Motor Vehicles	56	791,704

Photo by Deborah M. Sanders Murray

Mission

The mission of the U.S. Property and Fiscal Office (USPFO) for Hawaii is to receive and account for all funds and property of the United States in possession of the Hawaii National Guard (HING), ensure that federal funds are obligated and expended in conformance with applicable statutes and regulations, ensure that federal property is maintained and utilized in accordance with National Guard Bureau directives, manage the federal logistics systems for Hawaii and provide the support necessary for the transition of mobilized units to active duty status.

Personnel

The USPFO for Hawaii is authorized 88 full-time federal technicians.

Organization

The USPFO is organized as follows: Administration Office, Data Processing Installation, Analysis and Internal Review Division, Resource Management Division, Purchasing and Contracting Division and Supply and Services Division.

Administration Office

This office performs administrative services in support of the U.S. Property

and Fiscal Office operations by maintaining a centralized publication library, providing reproduction services, receiving and processing office mail and providing typing and word processing services.

Data Processing Installation

The Data Processing Installation provides services to the USPFO, Hawaii Army National Guard (HIARNG), Surface Maintenance Office, Human Resources Office, Standard Installation/Division Personnel System Branch and the Army Aviation Support Facilities. The installation operates a Burroughs B1955 and two UNISYS 5000/80 mainframes.

Analysis and Internal Review Division

Internal reviews are conducted by this division to ensure federal resources are properly managed and utilized. Emphasis is placed on evaluating the effectiveness of internal controls and determining whether the HING is operating efficiently and economically.

Resource Management Division

Federal funds allotted to the HING from Congressional appropriations are managed by this division. Separate offices administer funds assigned to

Army and Air operations.

The Army Guard office, located in the Diamond Head Crater, is composed of the financial manager, budget officer, staff accountant, Fiscal Accounting Branch and Pay and Examination Branch.

An assistant U.S. Property and Fiscal Officer for Air (Fiscal) controls funds allocated for support of the Hawaii Air National Guard (HIANG). This office is located at Hickam Air Force Base.

Purchasing and Contracting Division

Purchasing and contracting services are provided by this office to all activities of the HING by sealed bids, competitive proposals and small purchase procedures in accordance with federal acquisition regulations. Purchases are made from commercial vendors located throughout the State of Hawaii and Continental United States.

Supply and Services Division

This division is organized into the Stock Control, Property Management, Supply, and Transportation Branches, and provides logistical support and guidance to the HIARNG.

An assistant U.S. Property and Fiscal Officer for Air (Property) provides logistical support and guidance to the HIANG. This office is located at Hickam Air Force Base.

A full-time Carlson Wagonlit Travel office, in conjunction with the Transportation Branch, provides a wide array of transportation services; i.e., making plane and hotel reservations, writing airline tickets, handling air freight, arranging car rental reservations, and other travel requirements.

Highlights and Significant Events

Federal funds used by the HIARNG during the federal fiscal year totaled \$52,324,461 and \$91,933,639, respectively.

Table 4 of the Appendix reflects Federal dollars used between Oct. 1, 1995 and Sept. 30, 1996.

Military payrolls for the HING totalled \$43,590,310 this federal fiscal year.

During federal fiscal year 1996, local

purchases and contracting support of the HING units and activities totaled \$8,773,913. Of this total, \$3,998,626 represented architectural engineering services and construction contracts. There were 2,366 contracting actions for this federal fiscal year.

A total of \$1,758,178 was spent for supplies and equipment for the HIARNG, and \$3,998,626 by the HIANG. The equipment book value at the end of the fiscal year was \$2,404,437 for the Army National Guard and \$273,978,570 for the HIANG.

The HIARNG Transportation Branch arranged transportation for a total of 5,026 individuals: 1,055 for military interisland and mainland airlifts; 3,971 for commercial trips to the mainland, foreign trips, and commercial interisland trips. A total of 1,281 tons of cargo was shipped: 470 tons for annual training, 253 tons for the mainland, and 558 tons for interisland destinations. The total dollars spent to transport personal and equipment is shown in **Table 4** (Appendix). The use of Carlson Wagonlit Travel provided an estimated savings of \$2,282,074.

The HIANG Traffic Management Office arranged transportation for a total of 2,076 individuals: 1,031 for commercial trips to the mainland, 126 for foreign trips, and 919 for commercial interisland trips. A total of 571.5 tons of cargo was shipped: 3.2 tons for the mainland, and 568.3 for interisland destinations. The total dollars spent to transport personnel and equipment is shown in **Table 4** (Appendix).

The Data Processing Installation received new equipment and applications which have improved operations.

The Analysis and Internal Review Division completed two full audits, four follow-ups, and one quick reaction audit. These audits reduced waste of resources and improved management internal controls, resulting in savings of \$76,000.

Human Resources Office

Mission

The Human Resources Office (HRO) is a consolidated office that provides personnel, manpower management and administrative support services for all federal full-time personnel programs. The office serves as the adjutant general's single point of control for managing and administering Hawaii Army and Air National Guard personnel programs.

Personnel

The HRO is authorized a staff of 21. The current office staff includes 15 federal technicians and three Active Guard/Reserve (AGR) soldiers.

Organization

A standard National Guard structure prescribes that the personnel office must be organized with the following operating sections: personnel management, employee services, military duty management, military duty services, equal employment opportunity, labor relations and personnel data systems. The office is centrally located, and all records and authorized staff are co-located to provide a single point of contact for personnel.

Personnel Management Section

Section staff members develop policy recommendations, procedures and plans in compliance with the U.S. Office of Personnel Management and National Guard Bureau directives. The section is responsible for major program areas such as position management and classification, manning control, staffing, training, employee relations, performance management and recognition, incentive awards, disciplinary and adverse actions, grievances and appeals, personnel management evaluation and maintenance of the personnel data system. It furnishes technical advice and assistance to management officials, individuals and staff personnel.

Employee Services Section

This section provides a wide range of services to technicians throughout their employment life cycle. Beginning with employment processing and new technician orientations, the staff furnishes information on employee benefits, processes personnel actions, maintains individual technician personnel records, ensures proper pay administration, administers the federal Workers' Compensation program and processes retirements.

Military Duty Management Section

Army National Guard AGR enlisted personnel career management and tour retention processes, recruitment and advisory services take up much of this section's time. Unlike their staff counterparts who administer the Army and Air National Guard technician programs in compliance with common directives, the AGR management staff administers the military programs based on policies and procedures established by the Army, Air Force and separate National Guard directorates.

Military Duty Services Section

This section is the point of contact for commanders, supervisors and individuals seeking AGR administrative service and assistance pertinent to pay, benefits and entitlements. The addition of a medical administrative specialist has vastly improved coordination with military and civilian medical care providers who treat AGR personnel and their dependents on Oahu and the neighbor islands.

Equal Employment Opportunity Section

The equal employment manager plans, develops and administers programs for all employees (including state personnel) relative to equal employment.

Programs administered include affirmative employment programs with special emphasis on women and other minority issues, equal opportunity complaints processing, discrimination investigations, and related training to departmental personnel.

Labor Relations Section

This section provides federal labor relations services within the department. Two locals from national labor organizations are exclusive representatives of non-supervisory technicians in three bargaining units. Typical tasks include contract administration, management advisory services and labor management relations training. The section also serves as the point of contact for union and other federal labor relations representatives and as management's representative in dispute resolution and contract negotiations.

Personnel Data Systems

The National Guard Personnel Data System (Civilian) provides automated data processing and storage for technician personnel actions. This table-driven/on-line system has the ability to process and store information on personnel actions, establish and monitor suspenses and produce reports.

Highlights and Significant Events

Federal technician and AGR personnel assigned strengths at the beginning and end of the state's fiscal year were:

Army	Oct. 1, 1995	Sept. 30, 1996
Technicians	268	271
Active Guard Reserve	196	197
Air		
Technicians	727	686
Active Guard Reserve	148	147
Total	1,339	1,301

Federal full-time support personnel authorizations are based on unit priorities. Within the Hawaii Army National Guard (HIARNG), full-time technician authorizations remained unchanged,

AGR authorizations were reduced three percent. Within the Hawaii Air National Guard (HIANG), changes included a restructuring of the 154th Group organization. The effect of restructuring included a downsizing of the 199th Fighter Squadron F-15 aircraft, robusting of the 203rd Air Refueling Squadron (from four to eight KC-135R aircraft), and the activation of the 204th Airlift Squadron (four C-130 aircraft). The net effect of these changes was an increase of approximately 100 full-time authorizations.

Retirement and service awards luncheons were held in August 1994 and February 1995, honoring 23 retirees, seven length-of-service awardees and the recipients of the Adjutant General's Award (Department of Defense State Employee of the Year).

Types of Personnel Actions	Army	Air	Total
Appointments	27	23	50
Separations	41	150	191
Reassignments	39	72	111
Promotions	39	62	101
Within-Grade Increases	89	231	320
Retirements	2	8	10
Changes to Lower Grades	10	18	28

Incentive Awards			
	Army	Air	Total
Sustained Superior Performance Awards	27	15	42
Quality Salary Increases	<u>7</u>	<u>5</u>	<u>12</u>
Total	34	20	54

Engineering and Contracts Office

Mission

The Engineering and Contracts Office provides the entire spectrum of professional engineering services to the Hawaii Army National Guard, Hawaii Air National Guard, State Civil Defense, Office of Veterans Services and departmental staff sections to enable them to carry out their statewide programs.

The major responsibilities are to plan for, administer and supervise capital improvement projects, major and minor construction, consultant contract services, maintenance and repair, janitorial/custodial and ground maintenance, real property management, environmental and energy conservation, fire prevention and office paper recycling.

Personnel

The Engineering Office is authorized 48 state, seven federal and two Active Guard/Reserve (AGR) positions.

Organization

The Engineering Office consists of eight major staff responsibilities: Office Services, Contracting and Engineering Services, Maintenance Services, Air National Guard Engineering Services, Army National Guard Engineering Services, State Civil Defense Engineering Services, Office of Veterans Services and Hawaii National Guard Youth Challenge Program.

Repair and Maintenance Projects Awarded

Recurring minor maintenance, repairs and modifications of facilities are accomplished by in-house maintenance personnel on a time-and-materials basis, or by formal and informal construction contracts. This program is supported by federal, state or joint federal/state matching funds through separate Army and Air Service Contracts or Army Guard Training Site Contracts. The federal contracts under the Service and Training Site Contracts for federal fiscal year 1996 were:

Air National Guard (Federal/State)	
Service contract: Hickam (75/25)	\$1,126,400
Service contract: Hickam (100)	\$ 46,600
Service contract: Barking Sands, Keaukaha Military Reservation, Kahului, Barbers Point and Kekaha Armory (75/25)	\$277,000
Army National Guard	
Service Contract (75/25)	\$558,020
Service Contract (50/50)	\$137,000
Training Site (100% Fed)	\$1,498,100
Environmental (100% Fed)	\$717,618

A total of \$166,000 of state operations and maintenance (O&M) funds were expended to support our department's statewide programs.

Minor Construction Projects

Minor construction projects include all projects for minor construction or major repair, maintenance or modification of facilities. This program is supported by federal

Ongoing Major Design Activities During this Period: Design Cost (\$1,000)	State	Federal
1. Integrated Solid Waste Management Plan (HIARNG)	0	75
2. Environmental Baseline Study, NAS, Barbers Point (HIARNG)	0	293
3. Archaeological Study, Ukumehame Firing Range, Maui (HIARNG)	0	13
4. Historic Preservation Plan, Battery Harlow, Ft. Ruger (HIARNG)	0	55
5. Design of neighbor island veterans cemeteries Phase II (Hilo, Kauai, Maui, Molokai) (OVS)	0	378
Ongoing Major Construction Activities During this Period: Construction Cost (\$1,000)	State	Federal
1. Construct Roadway, State Veterans Cemetery, Kaneohe, Phase V (OVS)	81	81
2. Reroof Building 621, KMR, Hilo, Hawaii (HIARNG)	51	51
3. Reroof Building 300, Ft. Ruger, Honolulu, Hawaii (HIARNG)	28	28
4. Reroof Kahului Armory, Kahului, Maui (HIARNG)	36	35
5. Above ground Fuel Storage Tanks, Phase I, various locations (HIARNG)	0	245
6. Building 110, Rehabilitation, Wheeler Army Air Field, Wahiawa	0	273
7. Makawao Veterans Cemetery, Phase I, Maui (OVS)	159	159
8. Lanai Veterans Cemetery, Phase I, Lanai City (OVS)	230	230
9. West Hawaii Veterans Cemetery, Phase 1A, Kona (OVS)	287	287
10. West Hawaii Veterans Cemetery, Phase 1B, Kona (OVS)	305	305
11. Above ground Fuel Storage Tanks, Phase II, Paukukalo, Maui (HIARNG)	0	57
12. Above ground Fuel Storage Tanks, Phase II, MATES, Pearl City, HI (HIARNG)	0	127
13. Above ground Fuel Storage Tanks, Phase II, Kealakekua, Kona (HIARNG)	0	46
14. Upgrade Disaster Warning & Communications Devices, Statewide (SCD)	644	0

supported by federal funds, state funds or jointly with federal/state matching funds. On-going major design and construction projects for the past fiscal year are as listed in the chart shown on the left.

Judge Advocate Office

Mission

The Judge Advocate (JA) provides legal support to the adjutant general, staff elements, subordinate units of the Hawaii National Guard and the United States Property and Fiscal Office. In performing its mission, the JA:

- Prepares legal opinions on issues of federal law.
- Serves as federal litigation point of contact.
- Represents the adjutant general in federal labor-management proceedings.
- Reviews federal contracts relating to procurement and acquisitions and serves as the Hawaii National Guard's federal claims officer.

- Participates as legal advisor or counsel in administrative board proceedings.
- Acts on behalf of the convening authority in National Guard courts-martial.

Personnel

The Judge Advocate Office consists of a judge advocate supported by a shared clerk-typist for the Special Staff.

Organization

The JA reports directly to the adjutant general and works closely with Guard members on legal issues relating to the federal mission of the National Guard.

Public Affairs Office

Mission

The Public Affairs Office plans, develops, directs and administers the department's community relations and public and internal information programs. In accomplishing its mission, the office:

- Prepares and distributes news releases, photographs and videotapes on departmental activities to civilian and military news media locally and on the mainland.
- Responds to queries from the news media, public and other state and federal agencies.
- Provides briefings for civilian and military officials, community groups and new departmental employees to inform them of the department's mission and its economic and educational contributions to the state.
- Publishes the semi-quarterly newspaper for distribution to present and retired Hawaii National Guard members, state and federal agencies, and other parties interested in departmental activities.
- Publishes the quarterly newsletter for the Office of Veterans Services for distribution to veterans and veterans'

organizations.

- Consolidates, edits and publishes the department's annual report.
- Prepares speeches and reports for the adjutant general.
- Maintains the department's World Wide Web (W3) home page and provides guidance to units on web page development.
- Coordinates damage documentation assessments; oversees release of information to the public; and serves as spokesperson during disasters.

Personnel

The office consists of a public affairs officer, two information specialists and a clerk-typist. All personnel are full-time state employees.

Organization

The public affairs officer advises the adjutant general on public affairs matters relating to the department. The office works closely and coordinates its activities with public affairs officers of the department's major units/divisions and active military services to carry out its programs.

Senior Army Advisor

Mission

The Senior Army Advisor (SRAA) is responsible for providing advice, counsel and assistance to the adjutant general and his staff to strengthen the Hawaii Army National Guard's (HIARNG) readiness to perform post-mobilization war fighting missions. Duties and responsibilities are to:

- Serve as military advisor to the adjutant general.
- Represent and act as a spokesperson for the active Army in all HIARNG matters under the purview of U. S. Army Pacific.
- Render professional military advice to HIARNG commanders in military matters concerning the organization, operation,

tion, training and readiness of units.

- Inform the adjutant general and HIARNG commanders and staff of important issues and trends in the U.S. Army Pacific.
- Monitor the use and assist in the management of federal resources in support of the HIARNG.

Personnel

The office is staffed by an active duty Army colonel.

Organization

The SRAA reports directly to the adjutant general and works closely with Guard members on federal military missions and issues.

Air Force Senior Advisor

Mission

The Air Force Senior Advisor (AFSA) is responsible for providing advice, counsel and assistance to the adjutant general and his staff in order to strengthen the Hawaii Air National Guard's (HIANG) readiness to perform post-mobilization war fighting missions. Duties and responsibilities are to:

- Serve as military advisor to the adjutant general and his senior staff.
- Represent and act as a spokesperson for the active Air Force in all HIANG matters under the purview of Pacific Air Forces (PACAF).
- Maintain liaison with senior counterparts on the PACAF staff and ensure representation of HIANG issues, priorities and perspectives.

- Render professional military advice to HIANG commanders in military matters concerning the organization, operation, training and readiness of units.
- Maintain Instructor Pilot status and fly operational and training missions with one of HIANG's flying units.
- Oversee and coordinate activities of all active Air Force advisors assigned to the HIANG.

Personnel

The office is staffed by an active duty Air Force lieutenant colonel currently qualified in one of the HIANG's aircraft.

Organization

The AFSA reports directly to the adjutant general and works closely with PACAF counterparts and Guard members on federal military missions and issues.

Senior Enlisted Advisor

Mission

The State Command Sergeant Major (CSM) serves as the senior enlisted advisor for the Hawaii Army National

Guard and is responsible to the adjutant general for a variety of matters pertaining to policies and actions relative to enlisted Hawaii Army National Guard soldiers.

The State CSM's responsibilities are to:

- Advise the adjutant general on all enlisted matters.
- Assist the inspector general in solving enlisted problems.
- Work with the recruiting and retention office.
- Participate on boards related to enlisted soldiers to include promotion, Active Guard/Reserve continuation, selective retention and U.S. Army Pacific Non-Commissioned Officer and Soldier of the Year.
- Attend various conferences both locally and on the mainland.

- Work with HING staff to address quality of life and work environment issues relative to soldiers and their families.

Personnel

The CSM's office consists of a command sergeant major, supported by a clerk-typist shared among the Special Staff.

Organization

The CSM reports directly to the adjutant general and works closely with Guard members on enlisted issues.

Inspector General

Mission

The Inspector General (IG) is assigned to assist the adjutant general in assessing and reporting on, in an unbiased, objective manner, areas affecting mission performance, the state of efficiency, economy, discipline, morale, esprit de corps and readiness of the Hawaii National Guard. The IG also performs other duties as required by law and regulations or as directed by the adjutant general. The mission is accomplished using the concept of a full-service IG to:

- Provide assistance to Guard members, their families and the public in response to real or perceived issues involving the Hawaii National Guard.
- Act on adjutant general directives to conduct investigations and inquiries.
- Manage the staff/special inspection

program throughout the Hawaii National Guard.

- Act as a teacher or trainer when and where possible while performing other functions.

Personnel

The IG's office is staffed by an active duty lieutenant colonel and is supported by a clerk-typist shared among the Special Staff.

Organization

The IG reports directly to the adjutant general and is a member of his staff. The relationship between an IG and his/or her commander has been referred to as one in which the commander places in him/or her extraordinary trust and confidence to serve as an extension of his eyes, ears and conscience.

Information Management Office

Mission

The Information Management Office plans, programs and manages Army National Guard automation (less the Data Processing Installation, U.S. Property and Fiscal Office for Hawaii), telecommunications resources, visual information, records management, and pub-

lishing and printing. In accomplishing its mission, the office:

- Provides technical advice to the adjutant general, staff elements, U.S. Property and Fiscal Office and units of the Hawaii Army National Guard.
- Develops and administers state information systems objectives, policies,

plans and projects for supported organizations.

- Ensures adequate physical and operations security for automated information systems.
- Provides telecommunications, visual information, records management, publishing and printing and automation support to supported organizations.
- Determines automation training needs, coordinates training classes and recommends appropriate user training.

Personnel

The Information Management Office consists of the director of information management, a computer systems programmer, a communications management specialist, a computer assistant, a support

services specialist, a supply clerk and a duplicating machine operator. All personnel are federal technicians.

Organization

The Director of Information Management (DOIM) serves as the principal information management advisor on present and future requirements for automation, telecommunications, records management, publishing and printing, and visual information to the adjutant general and Hawaii Army National Guard officials. The office works with the National Guard Bureau's Information Systems Directorate, as well as with the other 53 Information Management offices nationwide.

Quality Advisor

Mission

The Quality Advisor (QA) is responsible for providing advice, guidance, direction and insight to the adjutant general and other senior staff members on all facets of the quality management systems and processes. Duties and responsibilities are to:

- Provide in-depth analysis and expertise on quality management as it relates to program requirements to successfully accomplish a statewide National Guard mission.
- Develop and issue detailed planning guidance and appropriate guidelines on the methodology and structure to be used within the state for implementation, maintenance, follow-up training and improvement of the quality management systems and processes.
- Advise staff and organizational managers concerning possible areas of quality improvement; providing ideas from industry, other organizations and states.
- Direct quantitative and qualitative analysis of separate organizational units for quality management and customer satisfaction efforts; using analysis results, modify guidelines and directives for attainment of quality objectives.
- Develop and maintain the quality

management strategic plan for the State with input from top-management officials and members of the adjutant general's council.

- Represent the adjutant general at quality management seminars and conferences. Serves as the quality liaison with all other outside quality management agencies.
- Develops a management infrastructure for the execution of quality education and training. Directs the design of awareness courses that include policy, strategy, doctrine, statistical process control, facilitation, group development skills, and changing organizational culture.
- Directs the establishment of quality information center.

Personnel

The office is staffed by a federal civil service technician.

Organization

The QA reports directly to the adjutant general and works closely with the Hawaii Army National Guard (HIARNG), the Hawaii Air National Guard (HIANG), State Civil Defense (SCD) and the Office of Veterans (OVS).

1996 FAMILY SUPPORT CONFERENCE--
Conference participants pose for the traditional conference photo. This year's conference was held at the Outrigger Prince Kuhio in Waikiki.

State Family Program Office

Mission

The State Family Program (SFP) office manages programs designed to increase the overall preparedness of Hawaii National Guard families to cope with the unique realities of Guard service. The Family Program Office accomplishes this mission by:

- Increasing the knowledge of family members regarding the benefits, privileges and obligations of Guard service.
- Creating a family support system to assist members during separations, providing information/referral networking and enhancing Guard retention.
- Providing feedback to the command on the concerns of family members.

Personnel

The office consists of a coordinator who is the only paid staff member. A state volunteer representative assists the coordinator in managing the activities of program volunteers throughout the State.

Organization

The SFP coordinator reports directly to the adjutant general and serves as a liaison for the adjutant general on family matters. Volunteers are located on each island as part of the "State Team" to support the family program at the unit level

by working directly with unit commanders and family support groups throughout the State.

Highlights and Significant Events

The SFP is continually working to educate and train Guard families, using with a variety of skills, to prepare them to move successfully into the 21st Century. The family program accomplishes this by providing Family Team Building courses to enhance personal and family readiness and, therefore, promoting unit readiness. The family program has joined forces with the Hawaii National Guard's Drug Demand Reduction team to facilitate parenting classes. Overall these initiatives prepare Guard families to cope with the special demands of Guard life as well as functioning effectively in everyday life.

Training

Annual briefing and training sessions are presented to the families in conjunction with unit training in order to prepare them for deployments and mobilizations exercises.

Table 1: Hawaii National Guard strength

(Sept. 30, 1996)	Army	Air	Total
Authorized strength	3,564	2,461	6,025
Actual strength	2,995	2,386	5,381
Percentage (%) officers	9.7	9.6	9.9

*These men
reenact military
life in the 1940s*

GOD BLESS AMERICA--
*Singer Patricia Lei Murray,
dressed in a replica World
War II uniform of the
Women's Air Raid Defense
Service, sings "Let There be
Peace on Earth" closing the
historic Hawaii Remembers
program Sept. 1, 1995. The
program paid tribute to
Hawaii's veterans and those
individuals who contributed
to the war effort on the home
front.*

THIS ONES FOR YOU--
*These Hawaii Army
National Guard World
War II veterans were
featured in the VJ Day
parade , Sept. 2, 1995*
