# EXAMINATIONS GIVE BUSY DAY TO 3RD INFANTRY

*June - 8*

"All of the staff and line officers of the 4th Infantry," says The Garden Island, "took their examinations on Sunday for commissions, and judging from smiles around it is taken for granted that all were satisfied with the results.

"As a rule the examinations began at or about 9:30 in the morning and concluded around 3 or 4 in the afternoon, the men taking lunch at the examination places or going without.

"Col. Broadbent conducted the examination of staff officers in Lihue, and Maj. Rive looked after the officers of the first battalion at the county building. Lieut.-col. Timmons took the officers of the two companies at Kealia and Maj. McBryde the officers at Homestead and Eleele. Maj. Baldwin 'put through' the officers of Makaweli and Waimea."
