

# WRESTLING AND BOXING BOOKED FOR GUARD MEN

Boxing and wrestling will form a big part of the program that will be staged at the Armory smoker which will be given by the members of the National Guard early in March. Fred Wichman, who will have charge of the athletic events, has announced that one of the best cards ever offered will be presented to the members at the coming show.

Although the preliminary plans have not been completed as yet Wichman announces that four of the best wrestlers in Hawaii will be scheduled for the smoker, and the boxing program will show several stars who have made good in the past. The entries will not be announced for some time, but the name of a certain champion is mentioned as a probable entry in the main event.

There are hundreds of boxing and wrestling fans in the National Guard, and a good card would draw better than any other sport that could be announced for indoors. Should plans go through a wrestling tournament will be one of the big features. There will be entries from each class, and several of the boys have already consented to go on.
