

# ACT 116: RELATING TO DISASTER RESPONSE

2025 Annual Report

Report to Thirty-Fifth Legislature

Regular Session of 2025

Prepared pursuant to Act 116, Session Laws of Hawaii 2022

by

Hawai'i Emergency Management Agency  
State of Hawaii

September 2025

## **Table of Contents**

1. Introduction
2. State Agency Reports
3. Funds Disbursed to and Remaining for State Agencies
4. State and County-Level Events
5. Summary

## **Tables**

- Table 1: State Agency Reported Expenses for FY2024
- Table 2: Major Disaster Funds (MDF) Expenditures and Encumbrances Summary for FY2025
- Table 3: MDF Funds Summary of Appropriation Transfers FY25
- Table 4: Funds Disbursed to and Remaining for State Agencies' Public Assistance Projects
- Table 5: Hazard Mitigation Funds Disbursed to and Remaining for State Agencies Projects
- Table 6: Summary of State Funds Expended and Federal Funds Received in FY25

## 1. Introduction

This report describes the Hawaii Emergency Management Agency’s (HIEMA) activities and progress related to the implementation of Act 116, Session Laws of Hawaii (SLH) 2022, Relating to Disaster Response. The Act requires identification of the sources of funds, the amount of funds, and the purpose of each expenditure. The Act requires the identification of any agency program or contract reduction because of disaster response spending.

Act 116 became law on June 27, 2022. State agencies were notified during the July 2025 Cabinet Meeting by MG Logan, TAG, Director of Emergency Management. All State Agency Directors were emailed on July 7, 2025 as follow-up and in notification of this law to provide this information. Prior to Act 116, state departments and agencies were not required to collect and report this information.

The FY 2025 report fulfills the requirement in Act 116 for the Hawaii Emergency Management Agency to report annually to the Governor and Legislature regarding clarification that federal funds received by the State for reimbursement of disaster-related expenses, except for federal funds received by the Department of Education for disaster-related expenses, shall first be applied to the originating fund used by the department of agency for the payment of disaster relief expenses, provided that if original appropriation has lapsed, the funds shall be returned to the general fund. The Act requires these funds to be identified by use.

The Act also requires the Administrator of the Hawaii Emergency Management Agency to submit an annual report on the status of federal reimbursement money for disaster response, and disaster response spending by each state department and agency with specifics to include the amount of funds requested, the amount reimbursed, and the average time between the request and the actual reimbursement being provided. The Act requires the reporting of differences between what is requested for federal reimbursement and what is received.

## 2. State Agency Reports

Act 116 requires each state department and agency to submit a report of all funds expended, if any, for the prior fiscal year by the state department and agency for disaster response to the HIEMA Administrator no later than August 1 of the current fiscal year. To support state agency reporting, HIEMA has requested state agencies provide their disaster response expenses immediately following incidents where state agencies had response activities. As shown in *Table 1: State Agency Self-Reported Expenses for FY25*, the only agency that responded was the Department of Accounting and General Services (DAGS).

**Table 1: State Agency Self-Reported Expenses for FY25**

State Agency Self-Reported Disaster Expenditures for FY25			
Agency	Amount	Funding Source	Notes
Dept. of Accounting and General Services (DAGS)	\$0.00	Not Applicable	No costs reported

To better quantify the state’s disaster operational expenditures for FY25, HIEMA utilized the Major Disaster Funds (MDF) accounting data as an information source. *Table 2: Major Disaster Funds (MDF) Expenditures and Encumbrances Summary for FY25* specifies the amount of Major Disaster Funds used and reimbursed by disaster. In accordance with HRS §127A-16(3)(d), the federal funds were deposited in the Trust account.

**Table 2: Major Disaster Funds (MDF) Expenditures and Encumbrances Summary for FY25**

MDF FUNDS SUMMARY OF POSTED EXPENSES FY25 (6/30/25)

*Table 3: MDF Funds Summary of Appropriation Transfers FY25* breaks down the MDF funds disbursed via transfer to state agencies to support their operational activities and services provided for the August 2023 Wildfires. MDF was not provided to any state agency for any other disaster during FY25. The state agency receiving the largest percentage of the transferred MDF funds was the Department of Human Services (DHS) in support of their housing mission.

**3. Federal Funds Disbursed to and Remaining for State Agencies**

Table 4: Funds Disbursed to and Remaining for State Agencies' Public Assistance Projects and Table 5: Hazard Mitigation Funds Disbursed and Remaining for State Agencies for FY 2025 by disaster. Table 4 and Table 5 also show the remaining federal funds allocated to each identified Public

Assistance (PA) and Hazard Mitigation (HM) project active and receiving funding during FY25. Federal funding of projects can include a percentage of non-federal share. This non-federal share can range from 75/25 federal/state to 100/0 federal/state. Once project documentation is submitted and approved for closeout, federal funds become available for drawdown and are applied to the originating fund or the general fund. State agencies projects require a state match.

Public Assistance and Hazard Mitigation funds are made available as part of the Presidential Disaster Declaration process. The following disaster events had PA and HM projects that received funding during FY25.

- DR4365 – Severe Storms, Flooding, Landslides, and Mudslides (2018)
  - Hazard Mitigation
- DR4366 – Kilauea Volcano (2018)
  - Public Assistance and Hazard Mitigation
- DR4510 – COVID (2020)
  - Public Assistance
- DR4549 – Severe Storms and Flooding (2020)
  - Public Assistance
- DR4604 – Severe Storms and Flooding (2021)
  - Public Assistance
- DR4639 – Severe Storms and Flooding (2022)
  - Public Assistance
- DR4724 – Hawaii Wildfires (2023)
  - Public Assistance

Disbursements are contingent on the subrecipients completing the approved work and submitting sufficient supporting expense documentation. There are two exceptions. First, when the cost of the project is large and can be phased. Phasing is when an expensive project, such as infrastructure restoration, requires advance planning and design prior to construction. Second, when there is an immediate need associated with life safety and security such as Non-Congregate Shelter (NCS) activities associated with DR4724 – Hawaii Wildfires. This is referred to as expedited funding. Expedited funding was used to support the Non-Congregate Sheltering (NCS) and DOE School Expenses associated with DR-4724 Hawaii Wildfires (2023).

Reimbursement data associated with FY 25 Disaster Response and Recovery indicates an average of two business days between the state requesting a drawdown of federal funds and those funds being released with the exception being the FEMA funding freeze that started on February 2, 2025, and ended on April 17, 2025. After the funding freeze was lifted, DOGE implemented additional documentation in addition to the previous requirements prior to releasing funds. Remaining PA federal funds across all disasters receiving funding in FY25 still to be disbursed is \$274,271,107.17. HM federal funds still to be disbursed are \$5,064,920.87.

#### 4. State and County-Level Events

Hawai‘i had no new federally declared disaster events during FY 2025

The MDF was used to support county and state emergency expenditures in FY 25 relating to the following disaster events:

- July 2024 Maui Crater Road Fire
- July 2024 Kauai Helicopter Crash
- July 2024 Kauai Hanapepe Wildfire
- July 2024 Kauai Kekaha/Kokee Wildfire
- August 2024 Tropical Storm Hone
- November 2024 Red Flag Warning
- January 2025 Low Pressure System

#### 5. Summary

Act 116 became Law on June 27, 2022, requiring state agencies to provide an assessment of the cost of a disaster incident to their agency. Many agencies provide and participate in response activities but do not document their efforts. This results in the cost to taxpayers for an incident not being fully understood.

The Act also required any federal reimbursements to be returned to the original source of funding. If the original funding source is no longer open, the reimbursement is to be returned to the state’s general funds. This requirement requires strong coordination between the Department of Accounting and General Services (DAGS), the Department of Budget and Finance (B&F), HIEMA, and grant subrecipients.

*Table 6: Summary of State Funds Expended and Federal Funds Received in FY25* shows the total state disaster related expenditures and federal disaster related reimbursements.

**Table 6: Summary of State Funds Expended and Federal Funds Received in FY25**

<b>Summary of State Funds Expended and Federal Funds Received in FY25</b>	
<b>Expended</b>	
Major Disaster Funds Expended	\$ 250,594,599.80
State Public Assistance Match Made	\$ 17,804,331.66
State Hazard Mitigation Match Made	\$ 205,931.36
<b>Total</b>	<b>\$ 268,604,862.82</b>
<b>Received</b>	
Major Disaster Funds Reimbursed	\$ 30,634,006.46
Federal Public Assistance Match Made	\$ 181,924,449.55
Federal Hazard Mitigation Match Made	\$ 617,794.08
<b>Total</b>	<b>\$ 213,176,250.09</b>
