

BEAUTY PATHWAYS

PERMANENT MAKEUP

Cosmetic tattooing or micropigmentation, is a cosmetic technique that uses tattooing to replicate the appearance of traditional makeup. Also included in this course is a brow lamination/tinting course

BODY SCULPTING

Also known as body contouring or shaping, refers to procedures that reshape the body without surgery, targeting specific areas for a leaner, more toned appearance.

AESTHETIC MED ASSIST

This course combines medical and esthetician duties, working in settings like med spas, dermatology offices, and patient cosmetic clinics to assist with aesthetic procedures.

FACIAL COURSE

Learn the skincare and become a trained professional who specializes in performing facials and other skincare treatments to improve the health and appearance of your face and overall skin.

- ## MACHINE, PRODUCTS & TOOLS

A collage of various beauty and wellness products. The top left features a box for 'BROW LAMINATION' by Euan Lindsay, with several small bottles of product and a tube of adhesive. To the right are two sets of 'QUELJOY' eyebrow mapping string threads, one black and one white, along with two jars of cream. Below these are several black and white tubes of product. The bottom left shows a large black hair dryer, a row of small bottles of hair oil, a black hair curler, and a black hair straightener. To the right of these is a black jumpsuit with a white bow at the waist.
